**Global Governance Gathering by The DAOist**

On Monday I led an impromptu workshop on DAO tooling and the needs of DAOs. The group discussed lots of ideas - the problems DAOs face today, why and it matters, how the underlying infrastructure also needs to be decentralized.

Who relies
on :
- Google
- AWS
- Other centralized

What do we
do?

Find & Fund:

- Teams
- Projects
- Ideas

...building the tools DAOs need.

Is this happening?

How many DAOs are doing this?
