

PartyDAO Proposal #8

Status: Pending

Summary: Pay 100 \$PARTY tokens and 1 ETH to Danny Aranda for working on the launch of PartyBid V1.

Total budget: 100 \$PARTY and 1 ETH

Author: John Palmer

Project description

DAO member Danny Aranda has been organizing lots of initiatives around the PartyBid V1. Amongst his efforts so far have been organizing the Block Party podcast, creating the launch planning document, and collaborating with Foundation, Zora, and FWB to plan auctions that will be good targets for Parties in our launch week.

Danny has done a ton of outreach so far and is continuing to work so that the PartyBid V1 launch is a big success on the marketing / partnerships side.

This proposal is to compensate him for this work, similarly to other V1 team members. If this proposal is passed, 50% will be sent to Danny for the work so far, and the other 50% will be sent upon the successful launch of PartyBid V1.

Supporting this proposal

Supporting this proposal means:

1. Paying 100 \$PARTY and 1 ETH to Danny Aranda for leading launch planning.

Please join discussion in the #dao-proposals channel to voice your opinion, as either part of this proposal may be up for debate.
