

EOS dApp Ecosystem

Security

- Blockbase** - Secures your data with the norms of the future. [blockbase.network](#)
- ZEOS** - ZEOS enables fully private and untraceable transactions on the EOS mainnet. [zeos.io](#)
- EOS Detective** - Visualize the token transfer history of EOS and Wax accounts. [eosdetective.io](#)
- Insights Network** - A privacy preserving global market research network. [about.insara.com](#)
- pEOS** - The first privacy centric token that is fully compatible with BEX. [peosone.com](#)
- Port** - Solving Sybil, Counting, noises with Passports. [port.link](#)
- SlowMist** - Focused on Blockchain Ecosystem Security. [slowmist.com](#)
- Azakazam** - A development, testing and deployment framework for EOSIO. [github.com/azakazam/azakazam](#)
- Tank** - Console tool to set up a blockchain cluster and search it using various transaction loads. [github.com/mobybits/tank](#)
- Lamington** - C# tools and JavaScript utilities to streamline the smart contract building. [lamington.io](#)
- EOS Factory** - Python-based EOS smart-contract development & testing framework. [github.com/lokanika/eosfactory](#)
- aDAPPI** - Fully featured IDE for EOSIO smart contracts. [github.com/eosrapid/adappi](#)
- EOS Studio** - A Graphic IDE to Expedite Your dApp-Development. [eosstudio.io](#)
- Kafka Plugin** - Used to receive the transaction data from blockchain and send out the transaction through Kafka producer. [github.com/TP-Lab/kafka-plugin](#)

Testing tools

- FUEEL** - Fuel allows EOSIO applications to cover resource costs for their users. [greymass.com/fuel](#)
- EOS Lime** - EOS Development Tool and Unit Testing Framework. [limechain.tech](#)
- LiquidApps** - Universal bridging framework and middleware of powerful services. [liquidapps.io](#)
- dfuse** - Empowers devs with capabilities to build modern blockchain dapps. [dfuse.eosnation.io](#)
- Hyperion** - A two-layer solution: Hyperion History API (datastructure) and Hyperion Analytics. [eosrio.io/hyperion](#)
- Bitquery** - GraphQL APIs support to query almost all data types. [bitquery.io](#)
- EOS Lime** - EOS Development Tool and Unit Testing Framework. [limechain.tech](#)
- LiquidApps** - Universal bridging framework and middleware of powerful services. [liquidapps.io](#)
- dfuse** - Empowers devs with capabilities to build modern blockchain dapps. [dfuse.eosnation.io](#)
- Hyperion** - A two-layer solution: Hyperion History API (datastructure) and Hyperion Analytics. [eosrio.io/hyperion](#)
- Bitquery** - GraphQL APIs support to query almost all data types. [bitquery.io](#)

Dev tools

- Atomic Assets** - Powerful and efficient NFT and assets standard for EOS/Wax. [atomicassets.io](#)
- Marble** - A modular digital item standard for EOSIO. [github.com/stephenli/marble-digital-item](#)
- EOSIO Testnet** - Block one's official EOSIO Testnet. [testnet.eos.io](#)
- CryptoKitties** - Development friendly, testnet maintained by a group of EOS BPs. [cryptokitties.com](#)
- Jungle Testnet** - The Best Place To Test Your EOS DApps. [jungletestnet.io](#)
- SimpleAssets** - A wrapper for dApps through which different types of digital assets can be created. [simpleassets.io](#)
- dGoods** - Open source and free digital goods standard. [dgoods.org](#)
- Zeus SDK** - EOSIO & EVM smart contract unit testing suite and API provider. [github.com/liquidapps-io/zeus-sdk](#)

Resources

- Blockbase** - Secures your data with the norms of the future. [blockbase.network](#)
- ZEOS** - ZEOS enables fully private and untraceable transactions on the EOS mainnet. [zeos.io](#)
- EOS Detective** - Visualize the token transfer history of EOS and Wax accounts. [eosdetective.io](#)
- Insights Network** - A privacy preserving global market research network. [about.insara.com](#)
- pEOS** - The first privacy centric token that is fully compatible with BEX. [peosone.com](#)
- Port** - Solving Sybil, Counting, noises with Passports. [port.link](#)
- SlowMist** - Focused on Blockchain Ecosystem Security. [slowmist.com](#)
- Azakazam** - A development, testing and deployment framework for EOSIO. [github.com/azakazam/azakazam](#)
- Tank** - Console tool to set up a blockchain cluster and search it using various transaction loads. [github.com/mobybits/tank](#)
- Lamington** - C# tools and JavaScript utilities to streamline the smart contract building. [lamington.io](#)
- EOS Factory** - Python-based EOS smart-contract development & testing framework. [github.com/lokanika/eosfactory](#)
- aDAPPI** - Fully featured IDE for EOSIO smart contracts. [github.com/eosrapid/adappi](#)
- EOS Studio** - A Graphic IDE to Expedite Your dApp-Development. [eosstudio.io](#)
- Kafka Plugin** - Used to receive the transaction data from blockchain and send out the transaction through Kafka producer. [github.com/TP-Lab/kafka-plugin](#)

Governance

- Tipit** - Send tokens for buying goods, giving gifts... [tipit.io](#)
- Challengedapp** - Provides challenges that users can participate in tasks for rewards. [challengedapp.io](#)
- Bywire News** - Independent news secured by EOS blockchain. [bywire.news](#)
- Emanate** - Music platform for the blockchain era with artists, creativity and collaboration at its core. [emanate.live](#)
- Sense** - The protocol for Human knowledge. Decentralized chat dApp and token. [sensesetoken.com](#)
- Maestro** - Music streaming platform for artists and listeners. [maestro.io](#)
- Appics** - Get rewarded for sharing your pictures & videos. [appics.com](#)
- EOS Writer** - The generation of high-quality EOS related media. [cryptowriter.io/eos](#)
- Eden** - A community working to maximize the power and independence of its members, thereby securing life, liberty, property and justice for all. [genesis.eden.eoscommunity.org](#)
- Genpool** - Receive staking rewards while supporting quality network validators and securing the EOS network. [genpool.io](#)
- Wordproof** - Enable trust, protect your content & prepare for next-generation SEO. [wordproof.com](#)
- Yup** - Your opinion matters. Get paid to rate the web. [yup.io](#)
- daCafé** - Listing meeting places for crypto enthusiasts. [datacafe.io](#)
- BBS** - Social network that distributes ad revenue to its users. [bbs.market](#)
- Flair** - The protocol for Human knowledge. Decentralized chat dApp and token. [flair.fun](#)
- EOS Marketplace** - Visualize all the businesses that accept EOS in the world. [eosmarketplace.io](#)
- Meet.one** - The portal to EOS ecology and leading DeFi/NFT Wallet. [meet.one](#)
- Tradestuff** - Efficient and secure way to trade stuff, no money involved. [tradestuff.com](#)
- HireVibes** - Decentralized job platform powered by crowdsourcing. [hirevibes.io](#)
- EOS Network Foundation** - Harnessing the power of decentralization to chart a coordinated future for the EOS Network as a force for positive global change. [eosn.foundation](#)
- Helios** - Empowering EOS with impactful investments. [heliosrising.com](#)
- Eosarter** - The first community-powered EOS incubator. [eosarter.pig](#)
- Pomelo** - An open-source crowdfunding platform that multiplies your contributions. [pomelo.io](#)

Platforms

- Simple Market** - A marketplace and standard for blockchain based digital assets. [eos.simplemarket.io](#)
- gems** - Community of creatives and collectors in the NFT space. [eosnation.io/gems](#)
- FINNEY** - An NFT Project by the cryptowriter team. [finney.world](#)
- Atomichub** - One stop solution for creating, trading, buying and selling NFTs. [atomichub.io](#)
- Trybe** - A tokenized Knowledge sharing network. [beta.trybe.one](#)
- Everipedia** - Next generation encyclopedia built on the blockchain. [everipedia.org](#)
- EOS Support** - EOS user support created by the community for the community. [eossupport.io](#)

Education

- Everipedia** - Next generation encyclopedia built on the blockchain. [everipedia.org](#)
- EOS Support** - EOS user support created by the community for the community. [eossupport.io](#)

FinTech

- DappFund** - Share a % of your inflation and support your favorite projects. [dappfund.io](#)
- Atidium** - Payments & budget management dApp. [atidium.io](#)
- EOS Microloan** - Allows user to create loans published on chain. [eosmicroloan.com](#)
- paytomat** - Brings financial services that modern customers eager. Exchange your assets, trade BEP-2 tokens or accessing dApps and games. [paytomat.com](#)
- EOS Power Network** - Bringing pull transaction to the DeFi ecosystem on EOS. [eospower.network](#)
- T- Starter** - The place to discover and back projects building on EOS, Telos & Wax. [app.tstarter.io](#)
- Chintai** - Transforming capital markets today into blockchain opportunities of tomorrow. [chintai.io](#)
- REX** - A marketplace created within the EOS blockchain that allows for the risk-free leasing of network resources (CPU & Network). [bloks.io/rex](#)

Infrastructure

- Blockbase** - Secures your data with the norms of the future. [blockbase.network](#)
- ZEOS** - ZEOS enables fully private and untraceable transactions on the EOS mainnet. [zeos.io](#)
- EOS Detective** - Visualize the token transfer history of EOS and Wax accounts. [eosdetective.io](#)
- Insights Network** - A privacy preserving global market research network. [about.insara.com](#)
- pEOS** - The first privacy centric token that is fully compatible with BEX. [peosone.com](#)
- Port** - Solving Sybil, Counting, noises with Passports. [port.link](#)
- SlowMist** - Focused on Blockchain Ecosystem Security. [slowmist.com](#)
- Azakazam** - A development, testing and deployment framework for EOSIO. [github.com/azakazam/azakazam](#)
- Tank** - Console tool to set up a blockchain cluster and search it using various transaction loads. [github.com/mobybits/tank](#)
- Lamington** - C# tools and JavaScript utilities to streamline the smart contract building. [lamington.io](#)
- EOS Factory** - Python-based EOS smart-contract development & testing framework. [github.com/lokanika/eosfactory](#)
- aDAPPI** - Fully featured IDE for EOSIO smart contracts. [github.com/eosrapid/adappi](#)
- EOS Studio** - A Graphic IDE to Expedite Your dApp-Development. [eosstudio.io](#)
- Kafka Plugin** - Used to receive the transaction data from blockchain and send out the transaction through Kafka producer. [github.com/TP-Lab/kafka-plugin](#)

Gaming

- Billionaire Token** - Decentralized games on the blockchain. [billionairetoken.com](#)
- EOS Games** - Random games platform on EOS blockchain. [eosgames.io](#)
- LuckySlot** - Epic Crypto Slot Games on the Blockchain. [luckyslot.bet](#)
- Bet Spider** - Hottest place to make wagers and investments. [betspider.io](#)
- Azarus** - A fair, reliable and transparent platform to play and bet for tokens. [azarus.io](#)
- Trust Dice** - Dice game built using trustworthy blockchain technology. [trustdice.win](#)
- Chainz Arena** - Cross Chain Idle Mining RPG - Play and Earn. [chainzarena.com](#)
- Chainz Arena** - Cross Chain Idle Mining RPG - Play and Earn. [chainzarena.com](#)
- Hexa Puzzle Duel** - A block puzzle game. [hexapuzzleduel.io](#)
- Bricks Battle** - An eSports crypto game on EOS for transparency. [bricksbattle.com](#)
- Womplay** - Free, Fun & Fair Rewards For Everyone (Dungeon Master, ...). [womplay.io](#)
- The Lost Diamond** - Real-world P2E adventure game. [cptblackbill.com](#)

Wallets

- Anchor** - Seamlessly and securely interact with any EOSIO-based blockchain. [greymass.com/anchor](#)
- Wombat** - The most user-friendly way of handling blockchain on Desktop, iOS & Android. [getwombat.io](#)
- Metamask** - A crypto wallet & gateway to blockchain apps. Now compatible with EOS. [eosargentina.github.io/minttransfer](#)
- Math Wallet** - Multichain Crypto Wallet for 2.5 million users, 100+ blockchains. [mathwallet.org](#)
- Token Pocket** - Multi-chain, security and convenience, the portal of DApps. [tokenpocket.pro](#)
- Starteos** - A safe and easy-to-use multi-chain wallet helps you gain assets. [starteos.io](#)
- MyKey** - Secure Smart Wallet Developed upon KEYID Protocol. [mykey.org](#)
- Unicove** - The easiest way to manage your EOSIO account. An Open-source project by creators of Anchor Wallet. [unicove.com](#)
- Web wallets** - A full service wallet and block explorer service provider. [bloks.io](#)
- Bloks** - A full service wallet and block explorer service provider. [bloks.io](#)
- Alcor** - Alcor is a lego of decentralized finance built on multi-chain. [alcor.exchange](#)
- WhaleEx** - Trade Cryptos on WhaleEx, the World's Largest DEX. [whaleex.com](#)
- OIX** - Public market that enables tokens to be compliant. [oix.global](#)
- Evodex** - Decentralized exchange that promotes the use of EOS for DeFi. Open-source. [evodex.io](#)
- DAD** - Stake your EOS to mine DAD tokens. [superdad.finance](#)
- Hegeos** - The simplest options trading experience. [hegeos.io](#)
- Pizza** - EOS-based decentralized financial network. [pizza.finance](#)
- Newpool** - The New Generation of Staking Pool. [newpool.io](#)
- Bullish** - Offers deep liquidity, automated market making, and industry-leading security. [bullish.com](#)
- ptokens** - pTokens can teleport any token to a different blockchain, without frictions. Liquidity unchanged. [ptokens.io](#)
- eCurve** - An exchange liquidity pool on EOS. [ecurve.finance](#)
- Powerpools** - Hold Tokens, Earn Rewards. By Bid. [powerpools.io](#)
- EFi** - Developing the entire EOS ecosystem, including DeFi and Dapps. [eosfi.io](#)

DeFi & exchanges

- Prospectors** - Multiplayer Online Real-Time Economic Strategy Game. [prospectors.io](#)
- Upland** - Property trading game with real-world addresses. [upland.me](#)
- Crypto Dynasty** - Idle trading game on the EOS blockchain. [eos.cryptodynasty.one](#)
- Kolobok** - Breed unique Kolobok and play to get NFTs. [eos.kolobok.io](#)
- Liquid** - A new universe building game on EOS. [liquid.io](#)
- Candy Pop Duel** - 1 on 1 Match-3 game with EOS prize! [candypopduel.io](#)
- Chainz Arena** - Cross Chain Idle Mining RPG - Play and Earn. [chainzarena.com](#)
- Hexa Puzzle Duel** - A block puzzle game. [hexapuzzleduel.io](#)
- Bricks Battle** - An eSports crypto game on EOS for transparency. [bricksbattle.com](#)
- Womplay** - Free, Fun & Fair Rewards For Everyone (Dungeon Master, ...). [womplay.io](#)
- The Lost Diamond** - Real-world P2E adventure game. [cptblackbill.com](#)
- Solitaire Duel** - 1 on 1 Solitaire with EOS prizes! [solitaireduel.io](#)

Centralized exchanges

- kucoin.com**
- binance.com**
- coinbase.com**
- coinex.com**
- kraken.com**
- huobi.com**
- bitfinex.com**

Wallets
