Artist in Light. Exploring interconnected nature of the space in existence using manual camera techniques in conceptual practice. Drawing upon traditional still & cinematic methods Gisel uses a digital 4x5 exploring paths of light that have not yet been developed. Intersecting her technical & conceptual nature, Gisel's motion works touch upon circadian rhythms searching for harmony in a sea of algorithmic influences. She highlights the space between the shutter & the time within the capture. As co-founder of WOCA (Women of Crypto Art) & a RISD alumni affinity leader, Gisel continues expanding towards artistic community initiatives & path towards autonomy for creatives.

1st generation Cuban-American & fairly fluent in Spanish
