Ref.: Ms. No. **CLSR-D-25-00475**

Lex Digitalis: The System Finds Itself in Contempt: Immutable Ethics for Autonomous AI
Computer Law & Security Review: The International Journal of Technology Law and Practice

Dear Mr Mazzocchetti,

Thank you for submitting your manuscript to Computer Law & Security Review: The International Journal of Technology Law and Practice. I regret to inform you that we have decided against publishing your submission. In brief, it was felt that your paper did not significantly advance the state of the art in the way that would ordinarily be expected of a paper published in CLSR.

For your information and guidance, any specific comments explaining why I have reached this decision and those received from reviewers, if available, are listed at the end of this letter.

We appreciate your submitting your manuscript to this journal and for giving us the opportunity to consider your work.

Kind regards,

Henry Pearce

Hi Henry,

Thanks for taking the time to review Lex Digitalis and for sending the quick decision and feedback.

I know it's a bit out there, trying to push law as code and immutability a bit further than most, but I appreciate you and your team giving it a serious look. No hard feelings at all. I'm committed to this space and just want to move the debate forward, even if sometimes it's more "provocation" than consensus.

If you or the reviewers ever want to share more detailed thoughts on where it landed for you, I'd genuinely welcome it. Either way, thanks again for the time and the professionalism. I'll keep an eye on CLSR and maybe circle back with something more your speed in the future.

Best wishes,

Adam
