

Dexlab Inc. is a DeFi Blockchain Studio specialized in the integrated design and development of decentralized applications. This proposal indicates Dexlab's commitment to take on a leadership development role with PieDAO for the next 3 years, following a roadmap definition to be submitted on a semi-annual basis to PieDAO for approval through on-chain governance voting.

The Dexlab team is composed of experienced professionals and members of the DeFi ecosystem having already deeply contributed to the early set-up and development of PieDAO, highly passionate and committed to make the PieDAO vision a reality. The proposing team has a [proven track record](#) of delivery, having notably launched, among other products, Dexwallet.io, Ddai.dexwallet.io, Dexpay.me, Defitracker.io.

Our proposal to take on the lead role for PieDAO's development would include Dexlab's responsibility for the next 3 years over the following domains:

- **Project Management and orchestration of the entire development scope to comply with the milestones given with budget responsibility;**
- **Technical Design, Development and Maintenance of the PieDAO infrastructure;**
- **Talent & resource sourcing and management;**
- **Technical Development and Integration with third party protocols of ad-hoc solutions for future PIEs;**
- **Functional advisory for the development of future PIEs voted as per PieDAO's governance;**
- **Research and development of Interoperability solutions, with particular focus on improved UI and streamlined liquidity aggregation;**
- **Launch and promotion of Bounty programs for the externalization of development tasks;**
- **Domain and required subscription management on behalf of PieDAO;**
- **Contracting of Technical Auditors in charge for multiple code-validation milestones**
- **Development of ad-hoc onboarding solution to streamline the general awareness of PieDAO;**
- **PieDAO Community coordination, with appointment of required resources for *glocal* community building;**

- **Continuous update and improvement of documentation for developers;**
- **Production of Design materials and educational contents for a broader audience' sensibilisation;**

Dexlab will also make sure PieDAO will be properly represented across the DeFi community, ensuring its exposure to the most appropriate meet-ups, hackathons, events and publications globally.

The above development efforts would be invoiced at an agreed rate and submitted on a monthly basis to PieDAO to be approved for compensation by governance's voting.
