

Techniques to Control Large Groups of People or Causing Mass Psychosis of Citizens by the Government

Embedding the unreality: isolating the public inside their homes does more than divorce them from normal routine and crucial interaction with other stable individuals, whose viewpoints and logic can be problematic to the drone developing pasticity, in lockdown the drones are almost universally drawn to media to allay both boredom and the underlying unease they feel. Here is where the talking head of corporate news show their worth by whipping up fear and hysteria with whatever cherry picked stats are appropriate. silent of global news of cities not locking down and dealing with outbreaks, and footnote reporting if at all on freedom protests or legal suits against vaccine passports. Our loyal lapdog media sings a uniform repetition of fear, stress and safety through obedience, helped along by martial law and draconian penalties. Seeing and hearing our narrative looping day in day out lodges it firmly and actively blinds the public to facts like CDC withdrawal of PCR tests.

TREASON
