

ITEM 19: My Attempt to Warn My Ex-husband

Regarding Our Daughter That The State-Actor Defendants May Have Also Subjected Her to the Exact Same Sexual Abuse And Exploitation Via Hidden Cameras.

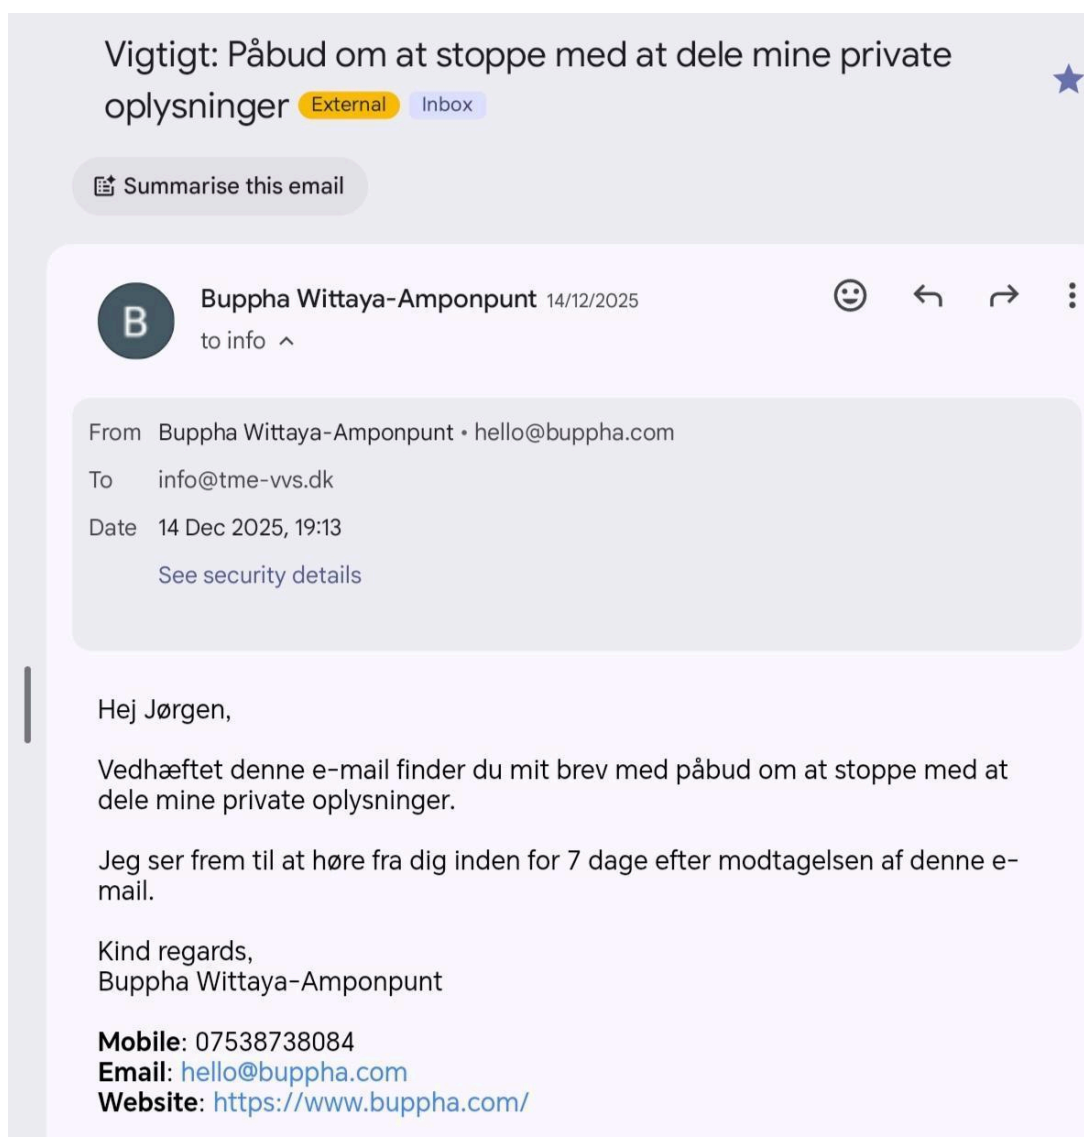

I also reasonably believe that my ex-husband, Jørgensen Mortensen (Who is also the father of my daughter), and ex-boyfriend, Nikolaj Teinvig, both are living in Denmark, have knowingly or recklessly disclosed my and my daughter's private and sensitive information to the UK-and-Danish-based State-Actor Defendants or their agents. This conduct includes ignoring credible warnings regarding potential sexual abuse, death threats, and the use of a sexpionage to gather information, suppress the truth and control/manipulate our daughter, thereby facilitating ongoing harassment and exploitation.

On 14–15 December 2025, I issued Cease and Desist letters to my ex-husband and ex-boyfriend, requesting the immediate cessation of all disclosure of private information and the identity of her new Spanish boyfriend, believed to be a sexpionage sent by the UK State-actor Defendants to manipulate my daughter, suppress the truth and gather our information to send it to his UK bosses for exploitation as well.

My ex-husband responded with an aggressive and threatening email that disregarded the daughter's safety, mirrored the UK State-actor Defendants' established gaslighting tactics, and even accused me of harassment, thereby obstructing justice and perpetuating emotional distress.

Refusal to Address Daughter's Safety and Well-being: Despite the explicit warning in my Cease and Desist letter regarding the severe risk of sexual abuse via hidden cameras to our daughter, his email conspicuously omits any acknowledgment or concern for our daughter's safety. This refusal to engage with a matter of such grave importance, particularly concerning sexual abuse and the potential distribution of intimate images, is highly atypical for a concerned parent and strongly suggests external influence and manipulation by the UK State-actor Defendants, who have a vested interest in suppressing this information.

Parallel to Legal Obstruction: This tactic is analogous to the UK State-actor Defendants' consistent efforts to prevent me from securing legal representation, thereby ensuring they can continue their abusive activities 'under the radar.' It underscores their determination to stop at nothing, even if it means destroying my daughter's life, solely to inflict harm upon me.

Caption: On **14 December 2025**, I sent a Cease and Desist letter to my ex-husband, Jørgen Mortensen, explicitly warning him against such disclosures and highlighting the severe risks, including the potential sexual abuse via covert surveillance, to our shared daughter, who is approximately 35 years old.

At approximately 19:30 pm, immediately after downloading the document titled **"ITEM 19 - My Attempt to Warn My Ex-husband: Regarding Our Daughter That The State-Actor Defendants May Have Also Subjected Her to the Exact Same Sexual Abuse And Exploitation Via Hidden Cameras,"** I heard someone suddenly exit the property and slam the main door shut.

At approximately 19:34 pm, immediately upon adding the above-mentioned paragraph into this document, I heard someone open the front door to exit and at the same time another one also return to the property and slam the main door shut. I heard one of them say "thank you" to another which sounded like Person B, who lives upstairs.

At approximately 19:39 pm, immediately upon editing the document that I had just downloaded regarding the concerns about my daughter and my attempt to warn my ex-husband, and reaching the section about the potential that the Defendants - some of whom I reasonably believe are the UK State-actor Defendants, which could be the UK PM Keir Starmer, the police and/or MI5 & MI6 - may have also subjected her to the exact same sexual abuse and exploitation via hidden cameras, I heard another individual suddenly exit the property and aggressively slam the main door shut.

At approximately 19:49 pm, immediately upon adding the information to the previous paragraph about my reasonable belief that the the UK State-actor Defendants - which could be the UK PM Keir Starmer, the police and/or MI5 & MI6 - I heard someone close the front door and violently slam it shut again, as if to make me go look out of the window. When I did, I observed the aircraft beginning to "draw a line" right outside my window again, as seen in the image below.

They have repeatedly given me hints themselves that MI5 and/or MI6 may also be behind this, including the potential that they may have subjected my daughter to the exact same sexual abuse and exploitation via hidden cameras. So, my belief is based on this and on other strong circumstantial evidence. Particularly, when every attempt to warn my daughter and her father is met with repeated evidence tampering, manipulation, gaslighting, and an escalation in severe harassment and intimidation.

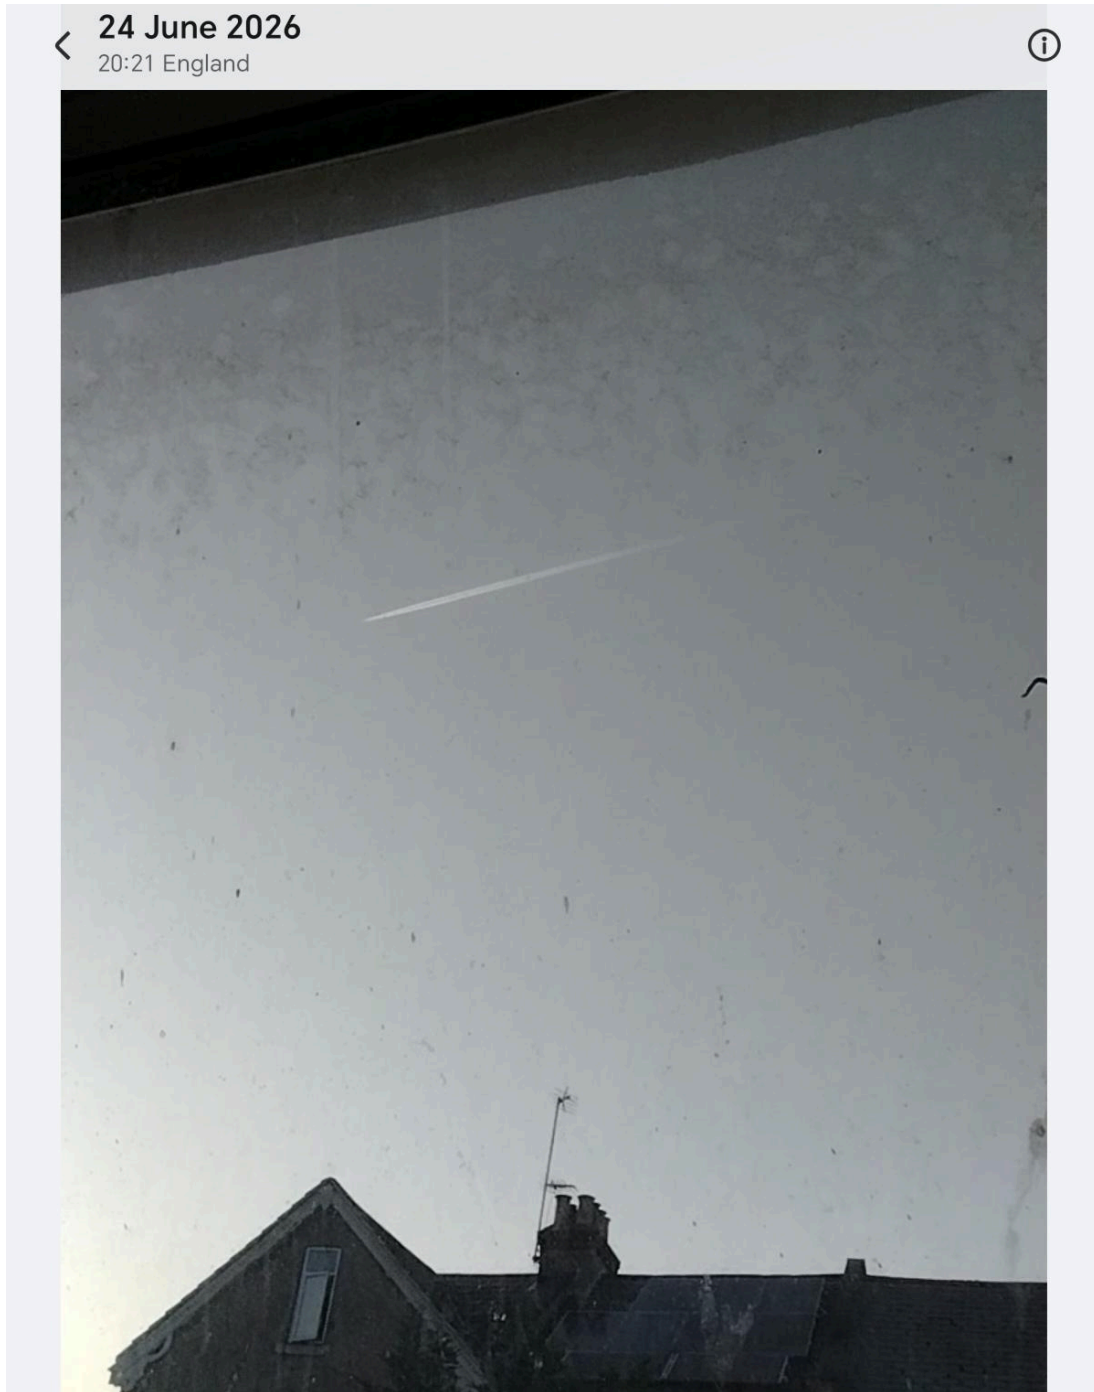

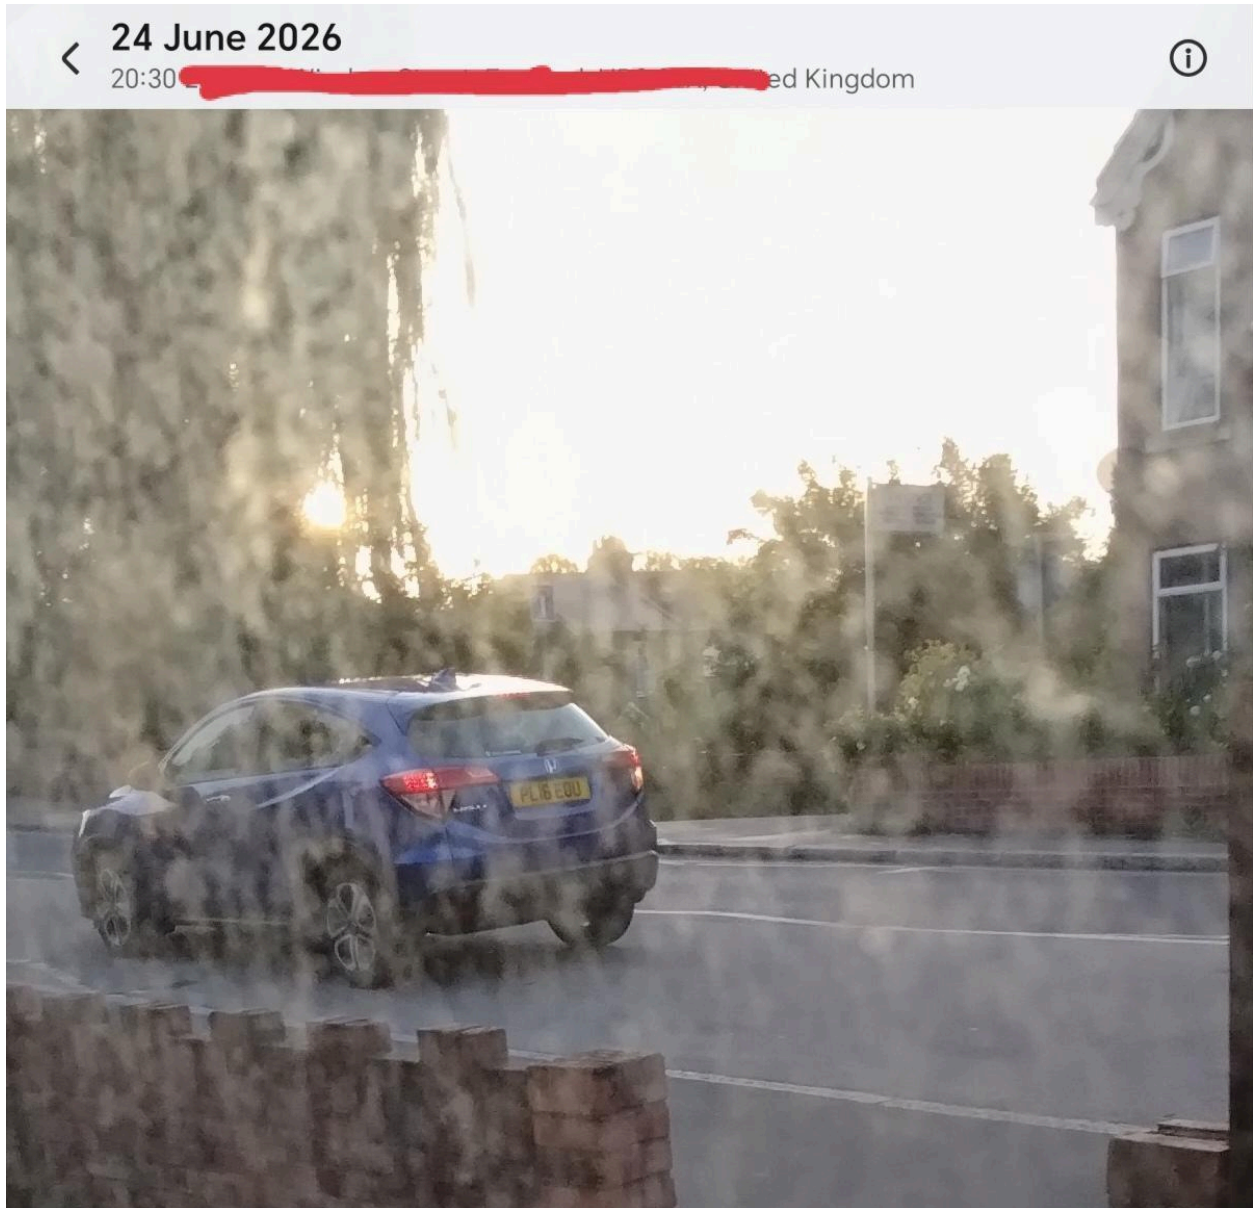

Caption: At 20:05 pm, immediately upon adding the information about MI5 and/or MI6, who I reasonably may also be behind this, including the potential that they may have subjected my daughter to the exact same sexual abuse and exploitation via hidden cameras, I heard someone exit the property and loudly slam the front door shut. It turned out to be Person A again, as seen in the image above.

Caption: At 20:19 pm, immediately upon adding the information about MI5 & MI6 and my daughter in the previous paragraph, I observed an ambulance driving past my window with the sirens on, as if to act as a messenger to make me go look outside the window again. When I did, I observed the aircraft “drawing a line” right outside my window again, as seen in the image above.

Caption: At 20:30 pm, immediately upon adding the information about the aircraft drawing a line, I heard someone slam a car door shut loudly outside my window, as if to prompt me to go to look outside the window again. When I did, I observed a **blue** car driving past my window, as seen in the image above.

Caption: This is a closeup of its number plate, which also contains the number "16" and a letter "E" right after it. I have also just mentioned MI5 & MI6 and their alleged involvement in the sexual abuse of my daughter via hidden cameras as well. My daughter's first name also begins with a letter "E."

This is how they also appear to use number plates as their means of secret communications as well.

A close-up of the helicopter.

Caption: At 20:43 pm, as I was adding more information to the first page of this document concerning the potential that my daughter's new Spanish boyfriend may be a "sexpionage" sent by the UK State-actor Defendants, I heard the sound of a helicopter flying low nearby. When I looked out of the window, I observed a helicopter flying low past my residence, as seen in the photos above. This is not the first time either that a helicopter seems to appear near my vicinity wherever I add sensitive information into my legal documents, as I have also described in my main "Official King's Bench N244 Application Notice" bundle (item 3), which is also part of this evidence bundle.

Interestingly, my daughter's new Spanish boyfriend, who still lives in Spain, has never visited my daughter in Germany, according to what she told me. If she wants to see him, she will have to travel to Spain to visit him herself. Or, they meet elsewhere for a vacation together. This strongly suggests that he knows there are hidden cameras in her place as well. He also works as a streamer, by the way.
