IN THE HIGH COURT OF JUSTICE

KING'S BENCH DIVISION – MEDIA AND COMMUNICATIONS LIST

Claim No: KB-2025-004650

Description: Photos and incidents demonstrating ongoing surveillance, voyeurism, distraction and witness intimidation.

Exhibited to: Witness Statement of BW dated 22 June 2026

EXHIBIT BW/4

ONGOING SURVEILLANCE / VOYEURISM / DISTRACTION / WITNESS INTIMIDATION

19 June 2026

On 19 June 2026, at approximately 8:34 am, immediately upon turning around in bed from left to right, I heard someone slam the main door shut. It sounded like Eddie. Because I could hear him cough. Maybe it's his medical condition when he occasionally coughs slightly.

This is how the Primary State-Actor Respondents, and probably other unknown state-actor respondents as well, use the housemates, neighbours, and so on, to act as messengers to convey surveillance and as tools for harassment and witness intimidation.

Caption: On 19 June 2026, at approximately 8:57 am, immediately upon stretching myself in bed, I heard a car door slam shut. It was from this van above.

Caption: The guy was unloading goods to the grocery shop next door. This is how the Primary State-Actor Respondents, both known and unknown, use unwitting service providers as tools for harassment and surveillance hints as well.

Despite pending injunction, the illegal surveillance, voyeurism, harassment, witness intimidation, misuse of private information, image-based sexual abuse, unjust enrichment, and other illegal acts, continue unabated.

Caption: At **10:10 am**, immediately after I was just about to email the court regarding my application for a fee refund request hasn't been paid yet, because I paid for my injunction application before applying for help with court fees, I heard these two individuals, as seen in a red circle in the image above, begin to converse loudly while walking past my window. The time symbolically ended in the **No.10** again.

Caption: At approximately 10:49 am, I asked chatgpt to produce a paragraph for me for my updated Schedule of Defendants intended to send alongside my 2nd Witness Statement, as seen below:

"I refer the Court to the updated Schedule of Defendants filed alongside this Witness Statement, which supersedes the previous Schedule of Defendants to the extent of any inconsistency. Unless otherwise stated, references to "the Defendants" in this Witness Statement are references to the parties identified in the updated Schedule."

Immediately after chatgpt drafted the above-mentioned paragraph for me, I heard someone exit the property and violently slam the main door shut. It was the skinny Black male housemate, as seen in the image above. He also appears to act as a messenger to convey surveillance (both via hidden cameras and cyberstalking), just like the rest of the housemates, when he does this daily whenever I expose the Respondents' (Proposed Defendants) misconduct, particularly concerning the Primary State-Actor Respondents, in my legal documents, add new crucial information or evidence to my legal documents or injunction application bundle, raise concerns about my daughter that she may also be a victim of the exact same sexual abuse and exploitation, talk about Keir Starmer and his alleged involvement in this, and so forth.

At approximately 10:55 am, immediately after adding the information about the previous housemate slamming the main door shut, I heard a female housemate, whom I called Person B for now, utter the sound "ahem" before slamming the main door shut. She also often utters the sound "ahem" while walking past my room before slamming the main door shut, as if she is instructed to do so to act as a messenger to convey control on the behalf of the Primary State-Actor Respondents. Because she also often does this whenever I work on my case and add new crucial information or evidence to my Witness Statement or Exhibits.

The violent door-slamming and witness intimidation continue unabated regardless, **suggesting once again that they act with impunity.**

Caption: At 11:19 am, soon after I typed “**suggesting once again that they act with impunity**” in the previous paragraph, I observed a police vehicle driving past my window.

Caption: I also observed this individual walking right after the police vehicle was gone. He appeared to turn around and glance at me, as if he knew in advance I would stand there by the window although I stood quite hidden behind the curtain.

Caption: Another picture of him.

Caption: At the same time, after he had walked past the property, the elderly lady residing in room 3 also exited the property and slammed the main door shut.

Caption: She even appeared to turn around and look at him after he had walked past the property, suggesting coordinated harassment.

At approximately 13:24 pm, while I was using the bathroom and concentrating, I heard a sudden loud car horn or similar outside, causing me an immediate startle. This is not an isolated incident either. This psychological torture technique has been use occasionally to torture me, to

eventually cause me psychiatric injury being tortured with all kinds of psychological torture techniques around the clock. My access to lawyers is also blocked, to give themselves a licence to abuse and torture me to no end.

This suggests once again that the Primary State-Actor Respondents, both known and unknown, don't just illegally install hidden cameras in every place I live for sexual abuse and exploitation for their own sexual gratification and personal financial gain but also for psychological torture. Because they can observe me 24/7, study my habits and behaviour, which will let them abuse and attack me whenever they see fit.

At approximately 13:36 pm, when I was just about to finish typing the previous paragraph regarding torture, I observed the young man residing in room 2 exiting the house and slamming the front door shut. This is how the Primary State-Actor Respondents use housemates to convey surveillance and to intimidate me, as I have also said elsewhere in my Witness Statement and Exhibits.

The harassment and intimidation also intensify as I soon submit my N244 Application again. Also, the more I write about the State-Actor Respondents and their alleged misconduct in my Witness Statement and Exhibits, the more they retaliate. That's why it's dangerous for me to prepare this case using my devices, while they're still actively monitoring all my legal strategies via hacking or other unauthorised access to my devices.

At approximately 18:29 pm, immediately upon putting my phone down, I heard someone slam the front door shut.

20 June 2026

At **2:15 am**, I heard a motorcycle accelerate aggressively past my window waking me up. The time symbolically ended in the "**No.15**" again. Because, lately, the number "**15**" has also been used consistently in the harassment campaign against me.

At **9:10 am**, I heard someone exit/return to the property and slam the main door shut waking me up again. The time also symbolically ended in the "**No.10**."

Caption: On 20 June 2026, at 6:49 am, immediately after I finished urinating, I heard a car door slam shut outside. This is how the Primary State-Actor Respondents let me know that the hidden cameras also record audio.

It could be coming from this van belonging to a grocery shop next door. This is not the first time either that this happens. The staff at this grocery shop also persistently act as messengers to convey surveillance. The Primary State-actor Respondents simply use the entire community, including public sectors such as the hospitals and Jobcentres, to participate in the harassment campaign against me and use them as messengers to convey surveillance as well - either knowingly or unknowingly.

Caption: This is the number plate of it.

Caption: Immediately upon looking out the window to take pictures of the van, a woman suddenly emerged and walked past my window. It's like this every single time I look out the window, some individuals will suddenly emerge in sync with my movement, to let me know I am being constantly watched via hidden cameras.

Caption: Oftentimes, they will wear clothing in one of the key colour signifiers such as **navy blue, army green**. They also started using **black** colour lately. So, sometimes their harassers will wear black outfits and carry something in one of the key colours signifiers instead. As seen in the image above, she's wearing a black outfit and carrying a **blue** coffee cup, holding it in a way as if to let me know it's intentional. While they're walking past my window, most of their harassers also often look at their phones, as if pretending to look on the Google maps on their phones for directions. This is how the Primary State-Actor Respondents seem to get their harassers to copy me, to signal to me that all my activities have also been observed whenever I am out and about. Because I often look at the Google map for directions when I go out.

Caption: At 11:44 am, immediately upon opening the top window, I observed an individual residing in the opposing house suddenly emerging and opening the door into the property. Simultaneously, a delivery man was also getting out of the van and opening the backdoor. This is also synchronised harassment, which I have explained in more detail in Exhibit BW/5.

Caption: At 11:49 am, immediately upon lifting the kettle to make coffee, I observed these two individuals emerging and walking past my window. It's like this every time I am about to do something or about to finish doing something in the kitchen, someone or individuals would suddenly emerge and walk past my window to convey surveillance; that everything I do is being observed via hidden cameras around the clock to cause psychiatric injury when they do it daily and 24/7, knowing I am being monitored around the clock.

Sometimes cars or motorcycles would also suddenly emerge and drive past my window when I'm about to do something or finish doing something.

Caption: At 11:56 am, immediately upon finishing my breakfast, I heard some individuals begin to converse loudly outside while walking past my window. It turned out to be the two individuals in an orange circle in the image above. One of them on the right wore a **navy blue** hat matching the colour of a **blue** car that also suddenly emerged and drove past my window, so that I would see the matching **blue** colour. Everything is so organised and planned to precision, suggesting a huge amount of resources being spent on this operation - possibly from the public funds and resources. Particularly, when it's been going on for years.

Some individuals may not know that they're being used as tools for harassment and surveillance hints.

Thus, the Primary State-actor Respondents appear to be using "harassment for hire." Because there are individuals who get paid to harass others - either knowingly or unknowingly.

See more information below:

Caption: The police website itself also explains the techniques of online stalking or harassment.

Source:

<https://www.police.uk/advice/advice-and-information/beta-stalking-and-harassment/what-is-stalking-harassment/>

"Harassment for hire" refers to the illegal practice of paying individuals or specialized corporate entities to systematically intimidate, stalk, dox, or abuse a targeted victim. These illicit operations—often hired by vengeful ex-partners, business rivals, or bad-faith actors—use digital and physical tactics to cause intense emotional or financial distress. [Police.uk +4](#)

Because hiring someone to execute harassment is a serious crime, targets have multiple legal and support avenues to stop the behavior and hold perpetrators accountable. [Police.uk +1](#)

Common Tactics Used

Paid harassment groups deploy multi-layered attacks to exploit vulnerabilities: [🔗](#)

- **Cyberstalking and Doxing:** Gathering and publishing private data, home addresses, phone numbers, and employment details online.
- **Targeted Trolling:** Deploying bots or paid networks to flood a victim's social media accounts with threats, slurs, or defaming comments.
- **Review Bombing:** Leaving false, highly damaging feedback on business pages to ruin a victim's livelihood.
- **Physical Surveillance:** Hiring private investigators or third parties to trail victims, photograph them, or stage encounters.
- **Spoofing and Swatting:** Making fraudulent emergency calls to dispatch law enforcement to the victim's house under false pretenses. [👉 Are They Safe +4](#)

Under UK law, both the person who pays for the service and the operatives executing the actions face strict criminal and civil liabilities: Citizens Advice • Criminal Charges: Undertaking a coordinated campaign against someone violates the Protection from Harassment Act 1997. It can lead to criminal prosecution, hefty fines, and lengthy prison sentences. Shelter - The housl... +4 • Civil Injunctions: Victims can work with Harassment Solicitors to secure civil injunctions or restraining orders. If the harasser breaches these court mandates, they commit an arrestable offense.  bounceblack.org    Organized Harassment (Including 'Gang Stalking'): A Method of Retaliation, Silencing, and Intimidation Overview: Organized harassment, commonly associated with the controversial term 'gang stalking,' is a form of coordinated intimidation and harassment perpetrated against individuals by groups or networks. This phenomenon involves multiple perpetrators working together to systematically target and harass a victim, often with the goal of retaliation, silencing dissent, or instilling fear.	Note: It is our preference to refer to this activity as 'organized harassment' rather than 'gang stalking' due to the widespread misperception that these experiences are entirely pathological and indicative of severe mental illness and paranoid delusions. Such a broad brush perspective is extremely dangerous and isolating for victims of these very real coordinated attempts at sabotage, discrediting, intimidation and destruction. Key Characteristics: Coordinated Effort: Perpetrators of organized harassment work together in a coordinated manner, utilizing various tactics to target the victim. Multifaceted Tactics: Perpetrators employ a wide range of tactics, including surveillance, stalking, verbal abuse, vandalism, psychological manipulation, and cyber harassment. Persistent and Pervasive: Organized harassment is often persistent and ongoing, creating a pervasive atmosphere of fear and anxiety for the victim. Gaslighting: Perpetrators may engage in gaslighting, deliberately manipulating the victim's perception of reality to undermine their confidence and sanity. Community Involvement: In some cases, perpetrators recruit members of the community, such as neighbours or acquaintances, to participate in the harassment campaign, further isolating
---	---

Motives:

1. **Retaliation:** Organized harassment may be initiated as retaliation for perceived slights, conflicts, or opposition to the perpetrators' beliefs or actions.
2. **Silencing Dissent:** Individuals who speak out against corruption, injustice, or other controversial issues may be targeted in an attempt to silence their voices and discourage further dissent.
3. **Intimidation:** The primary goal of organized harassment is often to intimidate and instill fear in the victim, coercing them into compliance or silence.

Impact on Victims:

1. **Psychological Effects:** Victims of organized harassment may experience

EE 07:31

VoLTE 4G 29%

Impact on Victims:

1. **Psychological Effects:** Victims of organized harassment may experience severe psychological distress, including anxiety, paranoia, depression, and post-traumatic stress disorder (PTSD).
2. **Social Isolation:** The harassment campaign can lead to social isolation as victims may withdraw from friends, family, and community activities out of fear or shame.
3. **Professional and Financial Consequences:** Victims may also suffer professional and financial repercussions, such as job loss, damage to reputation, or financial strain due to legal fees or relocation costs.
4. **Self-harm and suicidality:** Victims may feel trapped and powerless to improve and prove their situation, and so they may resort to self-destructive behaviour or taking their own lives (which is the ultimate aim of these harassment campaigns).

Caption: More Information on this by another UK survivor of covert surveillance and organised harassment.

Source: <https://bounceblack.org/resources/organised-harassment/>

Caption: On 20 June 2026, at 15:49 pm, immediately upon editing my Supplementary Draft Order to submit it today together with my N244 Application Notice, 2nd Witness Statement, Exhibits and related documents, I observed a helicopter emerging and flying low past my residence.

On 20 June 2026, at approximately 16:28 pm, I edited the below paragraph in my Supplemental Draft Order:

“Disqualification of Legal Representatives: The Directorate of Legal Services is immediately disqualified and restrained from acting further for the 2nd Defendant (The Commissioner of Police of The Metropolis) in these proceedings, or in any ancillary matters relating to this claim, due to the receipt and deployment of materials protected by Legal Professional Privilege (LPP).”

Immediately after finishing editing it, I heard someone suddenly exit the property and violently slam the front door shut. Then, at approximately 16:33 pm, immediately upon adding this incident in this Exhibit, I heard someone return to the property and slam the main door shut. Possibly, it's the same individual.

Caption: On 20 June 2026, at approximately 17:15 pm, immediately after I finished cooking, I observed this skinny Black male housemate returning to the property holding a Tesco shopping bag, as seen in the image above. The photo above is not from today but just to illustrate whom I'm talking about. He, just like the rest of the housemates, often exits/returns to the property and sometimes violently slams the front door shut whenever I begin/finish doing something to convey surveillance - either knowingly or unknowingly.

On the same day, 20 June 2026, at approximately 18:02 pm, immediately after finishing typing the previous paragraph regarding the violent door-slamming, I heard someone exit the property

and violently slam the main door shut. This is what the Primary State-Actor Respondents appear to be doing by instructing the individuals to do precisely the thing I have just written about, to provoke, assert control and to convey surveillance via cyberstalking.

Again, at approximately 18:19 pm, while I was halfway through my dinner, I heard someone exit the property and violently slam the main door shut.

Once again, this is shocking, despite knowing full well about the impending injunction, they don't seem to mind it at all and just continue to surveil, harass and intimidate me as usual and even escalate it.

APPLICATION FOR AN IN-CAMERA HEARING AND SPECIAL PROTECTIONS

TO: THE PRESIDING JUDGE

1. INTRODUCTION & PURPOSE

1.1 This urgent application is submitted by me since I don't have a lawyer due to my access to legal representation being blocked, a vital witness in the ongoing proceedings before this Court.

1.2 The purpose of this submission is to formally notify the Court of an imminent, grave, and life-threatening risk to my safety. This risk arises directly from systemic intimidation, surveillance, and harassment perpetrated by specific state actors and public officials connected to this case.

1.3 Accompanying this notice is a finalised draft of an **Urgent Appeal Intended for Submission to the United Nations Special Rapporteur on the Situation of Human Rights Defenders**. I am actively escalating this matter to international oversight bodies because domestic protection mechanisms are heavily compromised by the involved state actors.

2. THE NATURE OF THE COMPROMISE AND DANGER

2.1 I possess critical evidence central to exposing organised crime / systemic public corruption.

2.2 Because the intimidation is originating from within state agencies, standard police-led witness protection protocols are entirely unsafe and unavailable to me. The threats to my and my daughter's lives are credible, objective, and escalating.

2.3 The attached UN Draft is presented to this Court not as a theoretical complaint, but as definitive proof of the profound severity of my fear. It demonstrates that I am forced to seek international intervention to survive.

3. URGENT REMEDIES REQUESTED FROM THIS COURT

To preserve the integrity of the trial and protect human life under Article 2 of the European Convention on Human Rights (the Right to Life), I respectfully request that the Court immediately order the following:

Caption: On 20 June 2026, at **21:35 pm**, I created the document titled **Special Protections**, to notify the court that due to the ongoing **life-threatening witness intimidation** perpetrated by specific state actors and public officials connected to this case, I have drafted an **Urgent Appeal Intended for Submission to the United Nations Special Rapporteur on the Situation of Human Rights Defenders**, as seen in the screenshot above.

Caption: On 20 June 2026, at **10 pm**, as I was actively drafting the above-mentioned document, I observed two housemates exiting the property and slamming the main door shut.

Caption: The two housemates appeared to act as decoys or messengers, just like the rest of them to prompt me to go look out the window as usual. When I did, I observed the aircraft

drawing massive lines and X symbols in the sky right outside my residence as always. This picture was taken when another door-slamming occurred at **22:35 pm**, prompting me to go look out the window again and see more lines and X symbols drawn in the sky by the aircraft. Due to the darkness, the lines and X symbols may not be that visible.

The time it happened was also interesting, which was at **22:35 pm**, and I created the document regarding the “UN Urgent Appeal” at **21:35 pm**. This is how the Primary State-Actor Respondents seem to use numbers a lot, both to convey their secret communications and surveillance.

At approximately 23:30 pm, immediately after I was done typing the previous paragraph, I observed an individual returning to the property.

At 23:49 pm, immediately upon editing the title of this document “**Special Protections**” to add my claim number to it before downloading it to submit it together with the rest of my injunction application bundle, I observed an emergency vehicle quickly driving past my window. Due to the curtain, I could not visibly confirm if it's a police vehicle or an ambulance.

← URGENT UN APPEAL SUBMISSI... + [Messages] [Share] [More]

[Undo] [Redo] **B** U A [List] [List] [Link] [Text] [Image]

Article 6 of the ICCPR: The absolute right to life, which the state has a positive obligation to protect.

- **The UN Declaration on Human Rights Defenders (1998):** Specifically Article 12, which requires states to protect individuals who report institutional wrongdoing or participate in legal proceedings against human rights abuses.

5. REMEDIES AND URGENT ACTIONS REQUESTED

The Source respectfully requests that the Special Rapporteur issue an **Urgent Appeal communication** to the Government of the United Kingdom, demanding that they:

1. Immediately cease all state-sponsored surveillance, 24/7 non-consensually filming using hidden cameras, which also record audio, live-streaming of the illegal recordings, dissemination of private information and intimate materials, harassment, and intimidation against the Source and her daughter.
2. Immediately remove the Spanish honey trap / sexpionage from her daughter's life and cease the Covert Human Intelligence Source (CHIS) operation against all her family members, former partners, and everyone associated with the Source and her daughter.
3. Stop blocking her access to lawyers.
4. Knowingly engage in conduct intended to isolate the Source, interfere with, obstruct, undermine, or damage the Source's lawful employment, professional activities, business relationships, educational opportunities, housing, or lawful means of livelihood, and shall not use their public status to interfere with the Source's right to normal social and professional interaction.
5. Provide independent, non-compromised physical security measures overseen by a body entirely separate from the accused state actors.
6. Provide independent medical professionals to assess her health.
7. Guarantee the physical and legal safety of the Source so she may provide evidence to the UK court without fear of assassination or ruin.

Caption: On 21 June 2026, at approximately 7 am onwards, I began to edit my URGENT UN APPEAL SUBMISSION document and Exhibit BW/1 to include more crucial information, as seen in the screenshots above where I have underlined the new information with the red and green lines.

At approximately **7:05 am**, as soon as I began to edit these documents, I heard someone begin to make some noise near my room. I knew right away it's Eddie since I could hear his distinctive cough.

Caption: Then, at 8:04 am, I observed him exiting the property, as seen in the image above in an orange circle.

Caption: When I looked up in the sky, I then observed multiple thick lines and X symbols being drawn in the sky right outside my residence by the aircraft again.

Caption: At **8:05** am, Eddie returned to the property. So, he seemed to act as a decoy once again.

Caption: This is a close-up of him.

Caption: At 8:38 am, I heard some individuals begin to shout outside. It was from this guy and his companions or friends, as seen in the images below:

Caption: A more closeup of him. He also wore a pair of shorts in a distinct **pink** colour, and this colour has also been used consistently in the harassment campaign against me, alongside **navy blue** and **army green**, for instance.

Caption: His friend or partner also wore a jacket featuring a very **bright orange** colour. One of the **key colour signifiers** often used in the harassment campaign against me. Another individual in a white top also walked past them forming the number 3 as well, seemingly alluding to the violation of my human right article 3 (Freedom from torture, inhuman or degrading treatment) of the ECHR as usual. This is how they appear to use various methods to refer to the violations of my human rights, particularly Articles 3, 6 and 8.

Everything they do is just so coordinated and planned to precision.

Caption: They seemed to act as decoys or messengers as well to get me to go look out of the window once again. I would then see the aircraft continue to draw lines and symbols. So now, they appeared to form a Star of David, Hexagram, Unicursal Hexagram, or a Pentagram (Satanic Symbol) once again. Because similar symbols have been drawn in the sky right outside my window before, which I have also mentioned, along with some pictures, in my main injunction application bundle submitted on 9 June 2026.

The aircraft continued to draw lines and X or No.10 symbols throughout this morning, amounting to witness intimidation.

Caption: At 9:49 am, when I was just about to download this Exhibit to save on my device, I observed a police vehicle driving past my window.

21 June 2026

09:50 23, New Windsor Street, England, UB8 2TX, United Kingdom

Caption: When I looked up in the sky after seeing the police vehicle, I observed once again the aircraft **“drawing a line”** and an “X” or “No.10” symbol right outside my window. Thus, the police themselves seemed to act as decoys or messengers as well.

Caption: At 11:30 am, immediately upon finishing editing my Urgent UN Appeal document to be sent alongside my new injunction application bundle, I observed Person F, residing in room 3, exiting the property and aggressively slamming the main door shut. He also wore an **army green** top today, one of the **key colour signifiers** frequently used in the harassment campaign against me.

Caption: At 11:46 am, immediately upon opening my Exhibit BW/1 to download it ready to be sent alongside my N244 Application Notice, 2nd Witness Statement, Draft Order and other related documents, I observed the two newly moved-in male housemates upstairs exiting the property and aggressively slamming the main door shut. This looks therefore like both a distraction and witness intimidation when it happens almost every time I am about to edit one of my injunction documents or to download one of the documents ready to be submitted.

The one wearing a navy blue top even turned around and looked at me after exiting the property, as if he had been told that I had taken pictures of him and his roommate as evidence of organised harassment and intimidation.

This same technique, warning their harassers that I have taken pictures or videos of them as evidence, has also been used repeatedly to get them to intimidate me - either discreetly or openly or both, which I have also mentioned this in my injunction application bundle submitted on 9 June 2026 regarding Person A, who repeatedly harasses and intimidates me and even tells me to leave - to stop me from gathering evidence.

Caption: Immediately upon writing about Person A in the previous paragraph, I observed him exiting the property and slamming the main door shut.

Article 6 of the ICCPR: The absolute right to life, which the state has a positive obligation to protect.

- **The UN Declaration on Human Rights Defenders (1998):** Specifically Article 12, which requires states to protect individuals who report institutional wrongdoing or participate in legal proceedings against human rights abuses.

5. REMEDIES AND URGENT ACTIONS REQUESTED

The Source respectfully requests that the Special Rapporteur issue an **Urgent Appeal communication** to the Government of the United Kingdom, demanding that they:

1. Immediately cease all state-sponsored surveillance, 24/7 non-consensually filming using hidden cameras, which also record audio, live-streaming of the illegal recordings, dissemination of private information and intimate materials, harassment, and intimidation against the Source and her daughter.
2. Immediately remove the Spanish honey trap / sexpionage from her daughter's life and cease the Covert Human Intelligence Source (CHIS) operation against all her family members, former partners, and everyone associated with the Source and her daughter.
3. Stop blocking her access to lawyers.
4. Knowingly engage in conduct intended to isolate the Source, interfere with, obstruct, undermine, or damage the Source's lawful employment, professional activities, business relationships, educational opportunities, housing, or lawful means of livelihood, and shall not use their public status to interfere with the Source's right to normal social and professional interaction.
5. Provide independent, non-compromised physical security measures overseen by a body entirely separate from the accused state actors.
6. Provide independent medical professionals to assess her health.
7. Guarantee the physical and legal safety of the Source so she may provide evidence to the UK court without fear of assassination or ruin.

Caption: At 12:43 pm, I added another red highlight underneath the phrase “against the Source and her daughter,” as seen in the screenshot above, regarding **live-streaming of the illegal recordings** of both me and my daughter's. Because I reasonably believe she may also be a victim of the exact same sexual abuse and exploitation via hidden cameras.

Caption: At 12:45 pm, just two minutes after I finished typing the previous paragraph regarding my daughter, I observed Person B exiting the property and slamming the main door shut.

Thus, I have no doubt by now that the Primary State-Actor Respondents, both named and unnamed, may have actually subjected my daughter to the exact same sexual abuse and exploitation via hidden cameras. Because every time I talk about her and that they may have targeted her as well, the retaliation and intimidation occur almost immediately.

Again, at 13:27 pm, as I was just about to finish typing the previous paragraph, I heard someone exit the property and violently slam the main door shut. I stopped going to the window and investigated. Only sometimes. Because I know by now it's both a distraction and an act of intimidation.

Caption: At 12:46 pm, immediately after I was just about to edit the photo concerning Person B, as seen in the previous image, I observed a male housemate, a skinny Black male individual, also suddenly exiting the property and aggressively slamming the front door shut.

Caption: On 21 June 2026, at 14:49 pm, I re-submitted my urgent injunction application and an application to set aside the strike-out dated 2 April 2026.

Some of the Key Respondents / Defendants in my injunction application and my claim are the UK PM Keir Starmer, the UK Police, the Danish Police, Meta Platforms, Mark Zuckerberg, Elon Musk, X Corp, TikTok, Warner Bros and Coca-Cola, among many other Respondents / Defendants, concerning mass misuse of my private information, unjust enrichment, copyright infringement, defamation, severe harassment (both online and offline), intimidation and related damages.

Caption: On 21 June 2026, at 16:23 pm, when I was just about to finish my meal, I received a text message from O2UK. I knew right away it's to convey surveillance or voyeurism as usual. Because this tactic has been used consistently to let me know everything I do is being watched via hidden cameras 24/7, to humiliate me and make me feel uncomfortable around the clock as a form of psychological torture to break my resilience. The time symbolically ended in the number “23” again, as if to refer to the year I made a formal police complaint against two police officers, PC Jonathan Miotti and PC Andrew Ngo, which was in January 2023. Since then, the number 23 has also been used consistently in the harassment campaign against me.

When I was just about to add the previous paragraph to this document, at 16:27 pm, I heard someone approach the front door and aggressively slam it shut. It seemed like the individual didn't actually go out but just to slam the main door shut to intimidate me. This also happened soon after I had filed my injunction application earlier today. The time also ended in the number "27" as if to symbolically refer to me again, as a form of discreet intimidation. Because my DOB is also 27.

Exactly as expected, everything I type is being observed via cyberstalking or other unauthorized access to my devices. Because at approximately **17:26 pm**, when I was just about to finish my document bundle intended for publication for my petition, I observed Person A exiting the property and violently slamming the front door shut. This is shocking because I had just filled my injunction application about an hour or two ago, and they're (I mean the State-Actor Respondents, both known and unknown) constantly monitoring all my devices, so they already knew this. But they just continue to abuse, surveil, harass and intimidate me regardless and even escalate it.

At approximately 17:27 pm, Person A returned to the property and aggressively slammed the main door shut once again. The time ended in the number 27 again, as if to mock and taunt me regarding what I had written earlier concerning my DOB is also 27 and to let me know that the cyberstalking and hacking still continue unabated.

At 17:47 pm, immediately upon opening my petition document to edit it, a motorcycle suddenly rode past my window with an extremely loud acceleration as if to express aggression to make me feel intimidated.

14.2 The non-consensually obtained recordings are not only being used to harass, gain sexual gratification, sexually humiliate and intimidate me, but also appear to be commercialised for profit. They are shared with pornographic websites, commercial entities, tech platforms, film production companies, and so forth, to create advertisements and films based on my unlawfully obtained private information, intimate materials and creative works. These materials may already have been viewed by millions of people globally, causing devastating harm to my dignity, reputation, and wellbeing.

14.3 Furthermore, the non-consensually recordings obtained through this covert surveillance are also disseminated to strangers, acquaintances, and even individuals connected to me and my family. I reasonably believe this material has been shared electronically and used in AI-generated imagery, and maybe AI training as well, **as described in paragraph 18.6 Representative Example 2 pages 85-87 and in Exhibit BW-12 pages 194-201 and Exhibit BW-18 pages 243-246**, for instance.

14.4 As a result, I have completely lost control over my private and confidential information. The harassment and intimidation also intensity whenever I prepare or update legal documents, amounting to witness intimidation and coercive control. This conduct amounts to inhuman and degrading treatment (Article 3 ECHR), a violation of my right to privacy (Article 8 ECHR), and interference with my right to a fair trial (Article 6 ECHR), since they also appear to prevent me from having legal representation, so they can continue to sexually abuse me and my daughter via hidden cameras under the radar.

**EXHIBIT BW-18****FURTHER RELEASE****Wednesday, 15 April 2026**

Also, on 15 April 2026, I revised my **Draft Order** to include the prohibition order that the Respondents must also not sexually abuse and exploit my daughter via secret filming, voyeurism and dissemination. Because I reasonably believe they are also targeting her.

On 30 April 2026 at approximately 10:35 am, soon after adding the above-mentioned paragraph into this Exhibit, I went to the bathroom. While using the bathroom, I would hear housemates exit/return to the property and **forcefully** slam the main door shut!

I also created an **Urgency Retaliation Chronology**, pages 31-38, which also included details of **Ai-generated content** by Grok xAi (owned by Elon Musk) believed to be generated from my Private Information and Intimate Materials, and added more Defendants to my Schedule of Defendants.

On 5 June 2026, at approximately 00:05 am, immediately upon reading the first paragraph regarding my daughter, who I reasonably believe the Respondents, particularly the UK-based Primary Respondents (The State Actors), have also subjected her to the same sexual abuse and exploitation via hidden cameras, I heard a car drive past my window. This is how the Respondents appear to start using vehicles and motorcycles a lot lately, particularly after my claim was struck out, to convey surveillance - both surveillance via hidden cameras and via cyberstalking. The time also symbolically ends in the number "05" again, which can be read as the number "50" in reverse. My claim number also ends in the number "50" (KB-2025-004650). This is how the Respondents also frequently use numbers as a form of secret communications and intimidation.

Ai-generated content

Thursday, 16 April 2026

Figure 1

Caption: Screenshot of "Grok xAI" advertisement strategically placed at the top of my feed immediately upon logging into my [X.com](https://x.com) account at 11:21 am on 16 April 2026, which appears to reference, reflect, or incorporate materials relating to my private information and intimate materials unlawfully obtained via various means, including via hidden cameras. This specific ad seems to make references to the hidden camera in the bathroom as well, and how it captures me when I am habitually leaning forward to relax my lower back while using the bathroom. They appear to reflect back to me almost immediately. Because yesterday or two days ago, I went to the bathroom and sat exactly like this. Again, this is harassment by publication and intentional infliction of emotional distress by letting me know almost immediately that everything I do has been non-consensually recorded and disseminated or live-streamed in real time. This offensive ad on X also appeared the day after I had added a prohibitory order in my Draft Order that "the Respondents must also not sexually abuse and exploit my daughter via secret filming, voyeurism and dissemination," as I also said earlier at the beginning of this Exhibit.

On 7 June 2026, at approximately **22:51 pm**, immediately after typing at the end of the previous paragraph that "This offensive ad on X also appeared the day after ...," I heard someone smack

Claim Number: KB-2025-004650 | BW v Defendants - p.243 of 605

Caption: On 21 June 2026, at approximately 18:57 pm, I was editing a paragraph in my petition concerning Ai-generated content linked to Elon Musk, as seen in the screenshots above.

Caption: Immediately after I finished editing the paragraph regarding Ai-generated content connected to Elon Musk, as seen in the previous screenshots, I observed Person A exiting the property and slamming the main door shut again. He even turned around and sarcastically waved at me, as if he knew I would be standing by the window to see who it was.

ex-boyfriend, I received an email from **PC Lisa Giddings**, updating me on my police complaint made on 20 January 2023.

15.12 In **early October 2023**, I commenced my full-time studies as an undergraduate student (English and Film) at the **University of West London**. Around this time, I started receiving hints through learning materials, lecturers and emails that my private life had been secretly recorded for years, using hidden cameras and audio recording devices, and that these images, videos and sounds had been unlawfully distributed to various third parties, including pornographic sites. As seen in **Exhibits BW-03 (pages 149-151)** screenshots of teaching materials that appeared to make references to my sexual acts non-consensually taken with the hidden cameras over the years, possibly by the police and/or their co-conspirators, such as other Unknown Public Official Respondents.

Caption: At approximately 19:39 pm, I was editing a paragraph in my petition document regarding how I discovered through the learning materials that hidden cameras had been illegally installed in my former flat as well, non-consensually filming everything I did in that flat, including sexual acts.

Caption: Immediately after finishing editing that paragraph regarding secret filming, as seen in the previous image, I observed Person B exiting the property and slamming the main door shut. She even turned around and gave me a fierce look. Thus, I have no doubt by now this is witness intimidation. That's why I think one of the reasons they want to keep monitoring all my devices at all times is to see how much I have exposed their illegal enterprise so far, so that they can prepare their defense, conceal evidence and simultaneously intimidate me. This is clearly litigation misconduct and perverting the course of justice through witness intimidation and hacking, not to mention evidence tampering.

They then use my housemates as tools for harassment and intimidation.

At approximately 21:43 pm, immediately when I was just about to finish editing my Witness Statement in my petition bundle, I heard the two newly moved-in male housemates, residing in

the room upstairs above my room, suddenly return to the property and slam the main door shut. They then began to make lots of noise as usual.

This is how the Primary State-Actor Respondents, both named and unnamed, appear to let me know that they are constantly monitoring me both online via cyberstalking and offline via hidden cameras (illegal surveillance, voyeurism). They often do this when I'm just about to finish doing something, to train me to recognise that it's meant to convey surveillance, such as when I'm just about to finish typing a paragraph (cyberstalking), when I'm just about to finish drying the plates in the kitchen after doing the dishes (voyeurism / illegal surveillance).

Caption: Soon after I finished typing the previous paragraph regarding how the Primary State-Actor Respondents seem to give me some kind of hints that I am being constantly watched - both via cyberstalking and hidden cameras - I continued to edit the next paragraph in my petition bundle, as seen in the screenshot above. At **22:08 pm**, immediately upon editing the text "**Exhibit BW-28,**" I heard someone suddenly approach the front door and violently slam it shut. The time ended in the number 8 matching the **Exhibit BW-28** that I was editing at that very moment. This is how they continue to show defiance and to provoke, as if to suggest that they don't respect the law when the illegal acts committed against me just continue as usual and even seem to escalate despite knowing that I had just submitted my injunction application earlier today.

Caption: Again, the taunt and provocation continued when I was just about to finish typing the previous paragraph at precisely 22:27 pm, I observed an individual residing in the room upstairs right above my room exiting the property and slamming the main door shut. It's dark, so you can't see a clear picture of him. But I can use it as evidence when I observed him exiting the property and what I was doing at the time.

22 June 2026

Caption: At approximately 1:17 am, on 22 June 2026, immediately upon adding a comment regarding Keir Starmer underneath a YouTube video, as seen in the image above, I heard someone return or exit the property and close the door. This strongly suggests that Keir Starmer has his people to cyberstalk me at all times. Then, as soon as I mention his name, make a negative comment about him on social media, or just watch a negative video about him on YouTube, I will be given some signals that all my online activities are being monitored and I am not allowed to comment anything negative about him. The time also symbolically ended in the number 6 again. Because I have said many times before that I believe he has blocked my access to lawyers, which violates my human right article 6 (right to a fair trial) of the ECHR. Since then, the number 6 is consistently used to harass me.

of my life

Sir Keir Starmer said: "Walking up this street two years ago was the proudest moment of my life, a new Labour Government, the first in 14 years, a page in our country's history turned after years of disappointment and despair.

"The chance to change the lives of millions of people for the better. That's what I came into politics for."

9:28am

Starmer expected to resign from same lectern as Sunak

Amy Gibbons
Political Correspondent

Sir Keir Starmer is set to resign from the same lectern as Rishi Sunak.

The Prime Minister is expected to appear in Downing Street in the next few minutes.

Caption: On 22 June 2026, at approximately 9 am or so, I began to read the article online concerning Keir Starmer's resignation.

Caption: At 9:33 am, immediately upon reading the article about Keir Starmer's resignation, as seen in the previous screenshot, I observed Eddie exiting the property and slamming the main door shut. He wore a **burgundy** top again today.

Caption: At 9:35 am, immediately after Eddie had gone from my view, I observed a blue car driving past my window. Its number plate also contains the No.10.

Caption: He appeared to act as a messenger or decoy as usual to prompt me to go look out of the window. Because soon after, I observed the aircraft beginning to “**draw lines**” right outside my window again.

Caption: The aircraft continued to draw lines and X symbols right outside my window all morning.

Caption: At 9:45 am, right after seeing the aircraft drawing lines and X symbols in the sky, I also observed a police vehicle driving past my residence.

Caption: At 9:56 am, I also observed the aircraft drawing more threatening symbols in the sky right outside my window. It looks more like an X, No.10 or the Blair Witch Project symbol this time. I had also just made a comment about Keir Starmer at 1:17 am today, as described on page 68, saying that “he’s one of the **evilest** persons I’ve ever come across.”

Caption: At 10:32 am, I also heard someone exit the property, as if to prompt me to go look out of the window as always. When I did, I observed this guy in the image above unloading goods from a car with his back to me, which seemed intentional, as if so that I could see the number 32 at the back of his sports t-shirt, which can also be read as number 23 in reverse. I have also just mentioned the number “23” on page 58 and what I believe it's referring to. They then appear to do this shortly after to taunt me and to convey cyberstalking as usual.

On 22 June 2026, at approximately 11:50 am, immediately upon finishing defecating, I heard someone begin to converse nearby. This is how the perpetrators (the Primary State-Actor Respondents, both known and unknown) continue to give me various hints that the hidden cameras also record audio.

At approximately 11:59 am, immediately after I finished typing the previous paragraph, I heard someone exit the property and slam the main door shut. When I tried to look out of the window, the individual was nowhere to be seen. But immediately upon sitting back down in my bed, the same individual suddenly returned to the property and violently slammed the main door shut. I believe it's the same individual because of the timing. Immediately after the door-slamming, I heard the sirens nearby, which could be from a police vehicle.

Thus, they appear to continue to terrorise me even after I had already submitted my injunction application yesterday. They already knew this as well since they are constantly monitoring all my devices.

Caption: At approximately 14:17 pm, immediately upon resuming my work on my petition bundle and editing Exhibit BW-25, pages 307-308, regarding a red car containing the No.10 in its number plate as well, as demonstrated in the screenshots below, I heard someone begin to make some noise nearby again. I went out to investigate this time. It turned out to be the skinny Black male housemate again, residing in room 9 upstairs, whose name is Habie. He told me he moved to stay in this property in 2023. Maybe he's the same individual who's always making some noise near my room or in the kitchen next to my room whenever I am just about to edit my document or add crucial information to my legal documents, as described elsewhere in my Witness Statements and Exhibits. The screenshot above showed just his feet. Because I couldn't film his face right in front of him.

ⓘ

Caption: On 5 May 2026 at approximately 18:29 pm, immediately after I finished using the bathroom, I heard a housemate exit the property and slam the main door shut, as if to both convey surveillance as usual and to prompt me to go look out the window again. When I did, I observed a red car parking right outside my residence. A white elderly man was shortly observed coming back to his car. The number plate was also significant. Because it contained the No.10 again.

At approximately 19:18 pm, immediately upon adding the "No.10" to the previous paragraph, I heard someone exit the property and slam the main door shut.

 **Figure 10**

☰

Caption: A closeup of the man and the number plate, which read: VK10 JTY.

Caption: This is the red car on pages 307-308 in Exhibit BW-25 of my petition bundle that I was editing before Habie began to make some noise near my room, as I said earlier. The red car also contains the No.10: VK10 JTY.

Caption: At approximately 14:27 pm, when I was just about to edit my petition bundle again, I observed him exiting the property and slam the main door shut once again. Both incidents, the times also ended in the number 7.

At 14:37 pm, immediately upon saving some screenshots from Exhibit BW-25 from pages 307-308 in my petition bundle to add to this Exhibit, I heard someone suddenly exit the property and slam the main door shut.

At precisely 14:47 pm, again, when I was just about to continue to edit Exhibit BW-25, page 308, regarding the red car containing the No.10: VK10 JTY, I heard someone aggressively slam the main door shut.

Caption: At 14:49 pm, two minutes later, when I was just about to continue to edit Exhibit BW-25 regarding the red car on page 308 in my petition bundle, I heard someone violently slam the main door shut again. It turned out to be the newly moved-in male housemate, wearing a sky blue top as seen in the image above, believed to be residing in the room upstairs right above my room.

Caption: At 15:48 pm, immediately after I finished using the bathroom, I heard the sirens outside. It turned out to be a police vehicle. The time symbolically ended in the number 8 (Article 8 violation: right to privacy) again.

At 15:53 pm, immediately after coming out of the bathroom and sitting back down in my bed, I heard someone return to the property and slam the front door shut. It turned out to be the elderly lady, residing in room 3. The time symbolically ended in the number 3 again, as if to refer to the violation of my human right article 3 (freedom from torture, inhuman or degrading treatment) of the ECHR as usual. Because this number is persistently used in the harassment campaign against me as well.

22 June 2026

15:54 England

Caption: At 15:54 pm, immediately upon eating a snack, I heard some kids begin to converse loudly outside while walking past my window. It turned out to be this group, as seen in the image above. Getting someone to suddenly begin to converse loudly to convey surveillance is also one of the Primary State-Actor Respondents' favourite methods, to terrorise me around the clock!

Caption: At 15:57 pm, immediately upon editing the previous photo to add to this Exhibit, I heard the sirens nearby again. I then got up to look out of the window, since it might be the police vehicle once again. Immediately upon standing up, I heard someone exit the property and slam the main door shut. It turned out to be Person A, as seen in the image above, who's bald, at approximately early or mid 40s, British. He immediately turned around and confronted me, as if he had been pre-notified that I would take pictures from him as evidence of coordinated harassment and intimidation.

At approximately 16:27 pm, immediately after sitting down in my bed, I heard someone suddenly return to the property and slam the main door shut. This is how they psychologically torture me daily, using hidden cameras as tools for torture to make me feel uncomfortable around the clock.

This is how they also seem to escalate their harassment and intimidation, as I'm nearly done editing my petition bundle.

Once again, this is shocking that the abuse continues unabated despite knowing that I had just filled my injunction application yesterday, 21 June 2026.

Caption: At approximately 17:33 pm, immediately upon reading on the internet regarding Keir Starmer's resignation today, 22 June 2026, I heard someone exit the property and violently slam the main door shut.

Again, at approximately 17:39 pm, immediately after adding the screenshot above, I heard someone approach the main door, open it and aggressively slam it shut. The individual didn't seem to go out and seemed to go back inside the house again.

Caption: On 22 June 2026, at 18:35 pm, immediately upon editing a paragraph in my petition bundle on page 531, regarding the suspected undercovers, as seen in the red circle in the screenshot above, I heard someone suddenly exit or return to the property and aggressively slam the main door shut.

✎ ▾

On 7 June 2026, at approximately **12:23 pm**, immediately upon adding more crucial information regarding Respondent / Purposed Defendant D183, whose name is Jamie or James, to my Schedule of Defendants p. 45, describing that I believe he has used his mobile phone to secretly filmed me while I was performing sexual acts at his place, I observed Eddie exiting the property and slamming the main door shut.

On 7 June 2026, at approximately 13:07 pm, I was adding more information to my Schedule of Defendants p. 45, regarding another Respondent / Purposed Defendant, who lives or used to live in flat number ##, Selhurst Close, Putney, London, SW19 6AZ, opposite my previous flat number ##. Because I reasonably believe he's also involved in this and may be an undercover / a police officer himself. Immediately upon adding this information to my Schedule of Defendants p. 45, I observed Person B exiting the property and slamming the main door shut. She seemed to wait for a sec before abruptly slamming it shut in a way that gave me a sudden impact and caused me an immediate startle. This looks more and more like a conspiracy to injure by unlawful means, or even an attempted murder when I could eventually collapse and die of a heart attack, which seems to be their ultimate goal, and witness Intimidation to pervert the course of justice. Because they have been doing this daily. Particularly when I add more crucial information or evidence to my legal documents or this injunction application bundle. It then gradually builds up the consequences on my health and wellbeing. They appear to know this fact very well when they keep doing it until I collapse.

On 7 June 2026, at approximately 13:28 pm, immediately after finishing typing the previous paragraph, I heard the sirens outside, which could be from a police vehicle or an ambulance. When I ran to the window to investigate, it had already disappeared.

Shortly after, I heard what sounded like Person F, residing in room 3, who began to talk loudly on the phone before abruptly exiting the property and slamming the main door shut. They appear to repeat the exact same harassment technique I had just mentioned. The harassment, intimidation and distraction seem to intensify, as I soon finalise my injunction application, including whenever I add more crucial information or evidence to my legal documents.

On 7 June 2026, as I was nearly done with the preparation of my injunction application, I would experience a sharp escalation in harassment, intimidation via repeated loud door-slamming

⋮

Claim Number: KB-2025-004650 | BW v Defendants - p.531 of 605

Caption: On 22 June 2026, at approximately 18:42 pm, I was editing Exhibit BW-35, p.531, in my petition bundle, concerning a suspected undercover living in a flat opposite my flat at my previous Putney flat, as seen in the screenshot above in a red bracket.

Caption: Immediately upon editing that specific paragraph regarding a suspected undercover, as seen in the previous screenshot, I observed the bald guy, another male housemate residing in room 4, whom I also call Person A throughout my injunction application bundle, suddenly exiting the property and **AGGRESSIVELY** slamming the main door shut. It's more aggressive and violent than ever before!

While walking past my window after leaving the house and after violently slamming the front door shut, he even turned around and glanced at me with a triumphant look.

I have no doubt by now this is severe **witness intimidation**.

Consequently, my life is in grave danger!

Caption: At 19:18 pm, immediately upon resuming my work on editing Exhibit BW-35, p.531, in my petition bundle, I observed Person B, the one in a black outfit, exiting the property to get her takeaway delivery, which I believe she got it for for free as some kind of financial inducement for harassing me on the Primary State-Actor Respondents behalf. Just like the rest of the housemates.

It's like this every time I attempt to edit Exhibit BW-35 in my petition bundle, particularly concerning the suspected undercover on page 531. Someone would suddenly exit or return to the property and slam the main door shut.

For relief concerning: Systemic Harassment, Illegal Surveillance, Breach of Privacy, Misuse of Private Information, Distribution of Private Materials, Commercial Exploitation, Protection of Confidential Information, Sexual Abuse, Breach of Confidence, Data Breach, Breach of Contract, Cyberstalking, Hacking, Defamation, Racial And Sexual Harassment, Intimidation, Obstruction of Justice, Human Rights Abuses, Misfeasance in Public Office, and Related Illegal Acts.

Date of filing: 09/06/2026

Filed by: BW

Caption: On 22 June 2026, at approximately 20:34 pm, immediately after I had downloaded my petition bundle ready for publication, as seen in the screenshots above, the first two pages of it, I heard someone exit the property and violently slam the main door shut.

At approximately 20:43 pm, immediately upon watching a YouTube video regarding Keir Starmer's resignation, I heard someone exit the property and violently slam the main door shut.

Caption: Again, at 20:45 pm, immediately upon finishing typing the previous paragraph, I observed another individual suddenly exiting the property and aggressively slamming the main door shut. It turned out to be a male housemate, wearing a **navy blue** top, as seen in the image above, who resides in the room upstairs above my room. I think.

At 21:28 pm, immediately after I finished doing the dishes and went into the bathroom, I heard someone exit or return to the property and slam the main door shut.

At 21:30 pm, immediately upon typing the previous paragraph, I heard a car accelerate aggressively and loudly past my window. The noise harassment continues and has reached a dangerous level.

At 22:33 pm, while I was reading my Affidavit and reaching the paragraph about “Impact on work and finances: Every job I have applied for has been rejected, suggesting **Human Rights Violations**,” I heard loud sirens abruptly trigger nearby just briefly, which could be from a police vehicle or an ambulance. Anyway, it appears intentional to startle me and to cause a spike in my stress and anxiety levels as usual. Because I can recognise their modus operandi by now. After finishing typing this previous paragraph, I downloaded this document to save on my device.

At precisely 22:44 pm, immediately upon downloading this document, I heard someone approach the front door, open it and aggressively smack it shut - more aggressive than before! I immediately opened my door to investigate. The individual quickly ran upstairs and smacked something on the way. I could recognise his voice. It's one of the guys residing in the room upstairs right above my room. I added this paragraph after downloading this document. So, I will need to download an updated version of it with this new information.

At around midnight, I went to the bathroom. Immediately after coming out of the bathroom, I heard someone exit or return to the property and slam the main door shut. It's like this every single day!

23 June 2026

At 9:12 am, immediately upon adding evidence to my pdf document titled "[01_Official_Kings_Bench_Claim_Issue_Notification.pdf](#)" ready to be published along with my petition bundle, I observed the elderly lady, residing in room 3, exiting the property and slamming the main door shut.

Caption: At 9:14 am, immediately upon adding more evidence to my pdf document titled [“01_Official_Kings_Bench_Claim_Issue_Notification.pdf”](#) ready to be published along with my petition bundle, I observed Person B exiting the property and slamming the main door shut. She even turned around and gave me an intimidating look. She's the one in a red circle in the image above.

There were also two more individuals in the image forming the number 3 again, to symbolically allude to the violation of my human right Article 3 (freedom from torture, inhuman or degrading treatment) of the ECHR as usual. Because this technique has been repeatedly used, to always remind me of their violation of my human right Article 3.

Caption: On 22 June 2026, at approximately 11:30 am, after downloading it, I was looking at my correspondence with the Court's clerk regarding the repeated unexplained disappearance of my court documents submitted for my injunction application and court proceedings. This document is intended to publish it together with my petition bundle.

Caption: Immediately after downloading the document and looking at it to be sure everyone looks good, I observed a police vehicle driving past my window.

Caption: At the same time, immediately after the police vehicle was gone, I also observed Eddie, an elderly male housemate residing in room 11 upstairs, exiting the property and violently slamming the main door shut.

At precisely 16:16 pm, immediately upon editing the text regarding Urgent UN Appeal, I heard someone return or exit the property and violently slam the main door shut.

Subject: URGENT: Systematic Denial of Justice and Human Rights Violations

Dear [MP Name] / The Justice Secretary,

I am writing to you as your constituent to express grave concern regarding the case of Buppha Wittaya-Amponpunt.

It has been brought to my attention that Buppha Wittaya-Amponpunt is facing a systematic denial of access to justice, involving the obstruction of legal counsel and the repeated “disappearance” of court filings. More alarmingly, there are credible allegations of state-led intrusive surveillance, severe harassment, intimidation, and “honey trap” tactics used against her family, possibly orchestrated by the PM Keir Starmer.

THE TAXPAYER-FUNDED COVER-UP:
Industrial-Scale Misuse of Public
Resources

Caption: At 18:06 pm, immediately upon editing a draft letter for my supporters to send to their MPs (or other representative if outside the UK), as seen in the screenshot above, and just finishing editing the passage regarding **Keir Starmer**, I heard someone approach the front door, open it and aggressively slam it shut. I wasn't sure if the individual was actually leaving the house or not. But before that I heard someone cough, which sounded like Eddie again.

Again, at 18:10 pm, immediately upon continuing to edit my draft letter "Write to Your MP," I heard someone return to the property and slam the main door shut. It turned out to be the bald guy, Person A, residing in room 4. Because I went out to investigate this time. He started victim blaming and gaslighting me again by asking me: "Can I ask you something, why are you so paranoid?" When I told him it doesn't concern him and went back into my room, he walked past my room and loudly said: "You shouldn't be here if you're that paranoid!"

At approximately 18:30 pm, immediately after I finished editing my draft letter "Write to Your MP," I heard someone exit the property and violently slam the main door shut.

At approximately 20:30 pm, I was redrafting my [change.org](https://www.change.org) petition with added information about my daughter at the end of a paragraph, as seen in the text below:

"The decade-long 24/7 intrusive surveillance, voyeurism, cybersex trafficking, Image-based sexual abuse, mass misuse of private information, commercial exploitation on an industrial scale, witness intimidation, severe harassment, gross human rights abuses, the blocking of access to lawyers, and many more illegal acts, have therefore reached the level of seriousness, amounting to a calculated hate crime, violence against women, money laundering, corruption, sex trafficking ring, organised crime, torture and crimes against humanity. **Particularly when they also appear to target my family as well, especially my daughter!**"

Immediately after finishing typing the last line regarding my daughter, I heard someone return to the property and aggressively slam the main door shut.

Caption: At 20:33 pm, 3 minutes later, something to do with the number 3 again, immediately upon continuing to edit my draft petition, I heard someone suddenly exit the property and violently slam the main door shut once again. It turned out to be Person A again, who's bald, residing in room 4. He also wore an **army green** top and carried a **navy blue** backpack, which are two of the main colour signifiers often used in the harassment campaign against me. So, it's probably him who also aggressively slammed the main door shut at 20:30 pm.

At approximately 23:12 pm, immediately upon adding new crucial information to my petition package regarding my daughter, again, saying "If public officials are using state resources to film me and my daughter for profit, they are engaging in **commercial sexual exploitation**," I heard a car drive past my window and abruptly increase its acceleration causing me a **sudden startle** again. This technique, getting vehicles and motorcycles to **ABRUPTLY** accelerate producing loud noise at the exact moment they're driving past my window to cause me a sudden startle or spike in my stress/anxiety level, has also been used consistently as retaliation.

Particularly, whenever I raise concerns about my daughter and the potential that they may be sexually abusing and exploiting her via hidden cameras as well.

The violent door-slamming continued throughout the day whenever I added more crucial information and evidence to my petition bundle, or to edit an important document to submit it together with my petition bundle.

Due to severe witness intimidation, harassment, illegal surveillance, secret filming, voyeurism, live-streaming, misuse of private information, dissemination, commercial exploitation, and more illegal acts committed against me and my daughter, that keep continuing and escalating unabated despite pending injunction, making my petition even more necessary!

Caption: On 24 June 2026, at 6:28 am, at the exact moment I laid back down in bed, I heard someone slam a car door shut outside. It's from the car in the photos above, from a company called "Maylim." The time ended in the number 8 again, to symbolically refer to the violation of my human right article 8 (right to privacy) of the ECHR.

Caption: Information about the company Maylim, in which the car in the images above belongs to. The main colour of the website is also orange. This colour has also been used consistently in the harassment campaign against me. So, this seems like a deliberate choice to use a car from this company for the surveillance hint. Just in case I might want to look it up on the internet and would then see the orange colour. It's part of their **colour harassment** campaign as well.

It also has a green “tree” in the background, and the colour **green** and the number 3 have also been consistently used in the harassment campaign against me. Number 3, just like the number 8, has also been used consistently in the harassment to symbolically refer to the violation of my human right article 3 (freedom from torture, inhuman or degrading treatment) of the ECHR.

This is how the state-actor defendants appear to use all kinds of everyday items and stuff to convey their secret communications.

Modern Slavery Policy Statement

This statement has been published in accordance with Section 54 of the *UK Modern Slavery Act (2015)*. It sets out the steps taken by Maylim Limited during the financial year ending 5th April 2024 to prevent slavery, forced labour and human trafficking from taking place in any part of the business' operations, or that of its supply chain. From here on in, Maylim Limited will be referred to as 'Maylim' or 'the Company'.

Caption: On its website, it also has a Modern Slavery Policy Statement.

Part 1: The Taxpayer-Funded Cover-Up"

1. **Misallocation of Resources:**

While public services, local councils, and police forces are under-funded, massive amounts of money are being spent to target, stalk, and hack a single citizen.

2. **Personal Gain vs. Public Duty:**

Public officials are using state resources not to serve the public, but as a private security firm to bury their own corruption and secure corporate film royalties.

If public officials are using state resources to film me and my daughter for profit, they are engaging in **commercial sexual exploitation**. Under the [Modern Slavery](#)

2026

UK PM Keir Starmer was drowned out by the EU anthem Ode to Joy as he quit on Monday.

Footage shows him struggling to be heard over the music, played from the end of Downing Street.

Starmer was a strong opponent of the vote to leave the EU in 2016 - and was seen by many Brexiteers as a key figure in trying to block the result of the referendum - but then pledged to respect the outcome.

His main leadership rival, Mayor of Greater Manchester Andy Burnham, said last September that he would like to see the UK back in the EU within his lifetime.

Burnham won a decisive by-election victory last week to return to Parliament and challenge the PM.

On Sunday, US President Donald Trump posted on social media: "Keir Starmer will resign as Prime Minister of The United Kingdom. He failed badly on two very important subjects- IMMIGRATION AND ENERGY (OPEN NORTH SEA OIL!). I wish him well!"

Starmer has faced many scandals during his short term in office, including successive government u-turns, his former US ambassador's links to Jeffrey Epstein, immigration protests following the Belfast 'attempted beheading', the 'two tier' policing row after the murder of Henry Nowak, and others.

Caption: On 24 June 2026, at approximately 7:17 am, immediately upon watching a YouTube video about Keir Starmer, I heard someone exit the property and slam the main door shut. It's like this every single time. I therefore have no doubt by now that he has his people to unlawfully monitor all my online activities via cyberstalking to control me.

This is how he seems to maintain the violations of my human rights articles 8 & 10:

- **Article 8 of the ECHR (Right to Privacy):** Illegal surveillance and intercepting all of my communications without lawful, proportional, and independently overseen warrants violates my right to private life and confidential legal correspondence (legal professional privilege).
 - **Article 10 of the ECHR (Freedom of Expression):** These actions also constitute a violation of my right to freedom of expression under Article 10 of the European Convention on Human Rights, using extrajudicial coercive tactics (threats to firms, hacking) to stifle my Article 10 rights specifically to prevent me from exposing their corruption to legal counsel or the wider public.

13:05 England

This housemate also exited the property and slammed the main door shut at the exact moment I sat back down in my bed.

Caption: This is the male housemate who exited the property at 7:17 am when I began to watch a YouTube video about Keir Starmer. This picture is not from today but just to illustrate whom I was talking about. In the picture, he also wore a red top, and **red** colour has also been used consistently in the harassment campaign against me alongside **navy blue, army green and orange**, for instance.

On 24 June 2026, at 8 am, immediately upon pasting my petition link <https://c.org/K78dxV9bCk> from change.org into my draft petition document, I heard someone exit the property and slam the main door shut.

Again, at 8:03 am, immediately upon adding the same link to this Exhibit, as seen in the previous paragraph, I heard someone exit the property and slam the main door shut.

At 8:06 am, as I was typing the previous paragraph, I heard someone return to the property and slam the main door shut. Probably, it's the same individual, who left the property at 8:03 am, so that he could return to the property at 8:06 am, as seen in the image below, whose name is Habie, residing in room 9 upstairs.

Using numbers as their secret communications seems to be one of their favourite harassment techniques as well. Because all these 3 incidents contain the numbers 8 (the first door-slamming incident was at 8 am), the number 3 (the second door-slamming incident was at 8:03 am) and the number 6 (the third door-slamming incident was at 8:06 am). Then, it happens 3 times.

I have also talked extensively about how the perpetrators appear to use numbers 3, 6 and 8 a lot, to symbolically allude to the violations of my human rights article 3 (freedom from torture, inhuman or degrading treatment) article 6 (right to a fair trial) and article 8 (right to privacy) of the ECHR.

It's like psychological warfare.

impunity, delay proceedings, and avoid accountability, leading to significant delays in seeking redress, forcing me to act in person, and causing prolonged suffering.

The Demand: I am calling on the UK PM Keir Starmer and/or other public officials to immediately cease all illegal surveillance of citizens in active/pending litigation and to disclose all communications held with law firms regarding my case. We need 50,000 signatures to show the Ministry of Justice that the public will not stand for 'rigged' trials."

The Message: If public officials can spy on lawyers and block citizens from getting **legal help**, no one is safe from unfair trials and miscarriage of justice. Don't let them switch off the lights on justice. Please sign to CREATE NOISE and SHARE this everywhere!

Once again, to support me, please sign the portion here

<https://c.org/K78dxV9bCk>

Every time I try to reach a lawyer, they intervene. Because my own communication lines are compromised, I am therefore launching this petition to ask the public to step in. I need you to physically print this petition and mail it, or forward this link, to the human rights organisations, legal teams, and investigative journalists listed below. Keir Starmer and other public officials are trying to silence me in the shadows; please help me bring this case into the light.

EMERGENCY GLOBAL ACTION PROTOCOL: HELP ME BYPASS STATE ACTORS' CENSORSHIP

Caption: At approximately 9:55 am, I edited my petition document regarding the blocking of my access to "lawyers."

Date and time	Message	Added by
24 Jun 2026 at 8:56am	Hello Buppha, Safety Alert As the Hayes & Uxbridge areas have a Red Alert for extreme temperatures in place on Thursday 25/06/26, the Jobcentre Plus offices in these areas will be closed to protect both our customers and our staff. Do NOT come to the office for your booked face-to-face appointments on Thursday 25/06/26 You will be contacted by phone, around the time of your booked appointment, so be sure to answer the phone around that time, even if the number is not familiar to you. If you need to contact DWP/UC leave a Journal Message or call: 0800 328 5644, phone lines may be busy.	Mark Uxbridge Jobcentre Plus

Caption: This is the actual message from the Uxbridge Jobcentre, sent to me at 8:56 am containing the word “red” as well. Because the colour **red**, as I said many times before, has also been used consistently in the harassment campaign against me.

The time also concludes with the digit 6, to once again symbolically refer to the violation of my human right Article 6 (right to a fair trial). Because I have just talked about the blocking of my access to “lawyers.”

This is how the **State-actor Defendants** keep letting me know, via various means, that they're cyberstalking me at all times.

It's also to distract me whenever I try to progress my case by bombarding me with new harassing activities or surveillance hints at the exact moment I am about to finish finalising the preparation of my case. Just as how they try to delay my case via various means, such as

blocking my access to lawyers and making my documents disappear from the Court, so that I have to resubmit it again and again.

At approximately 17:04 pm, immediately after adding this text to my main folder for my petition “My Attempt to Warn My Ex-husband” regarding my suspicion that the state-actor defendants may also have subjected my daughter to the exact same sexual abuse and exploitation via hidden cameras, I heard someone cough nearby, which sounded like Person B, who resides in the room upstairs.

At approximately 17:16 pm, immediately after finishing typing the previous paragraph, I heard someone smack the front door shut.
