

Public Interest Statement: Access to Justice & Fair Trial Concerns

Title: Appeal for Legal Representation and Oversight in Case Number: KB-2025-004650

1. The Purpose of this Campaign

This campaign is a public call for help. Its sole purpose is to secure legal representation and independent oversight for a case that involves significant points of public interest. As a Litigant in Person, I am currently facing powerful state actors and corporations without the benefit of legal counsel, a situation that risks a fundamental miscarriage of justice.

2. The Barriers to a Fair Trial

Under **Article 6 of the Human Rights Act**, everyone is entitled to a fair trial and "Equality of Arms." Currently, this right is being undermined by:

- **Obstruction of Counsel:** Significant barriers have prevented me from securing independent legal advice or representation.
- **Surveillance Concerns:** There are credible concerns that private communications and digital activities are being monitored, creating a "chilling effect" that hinders my ability to contact lawyers and human rights organisations safely.
- **Resource Imbalance:** I am facing the full legal and financial resources of state-funded bodies while appearing unrepresented and under threat of retaliation.

3. Why this is in the Public Interest

This is not merely a private dispute. It concerns the integrity of our legal system and the principle that no one—regardless of their power or status—is above the law. When a citizen's access to the courts is effectively blocked by state actors' influence, it sets a dangerous precedent for all members of the public.

4. My Call to Action

I am seeking:

- **Legal Representation:** Any pro-bono legal teams, barristers, or human rights firms willing to review the case.
- **Independent Oversight:** Monitoring from human rights NGOs and international observers to ensure domestic legal procedures remain transparent.
- **Public Awareness:** To ensure that this case is heard in the light of day, preventing any attempts to "strike out" valid claims behind closed doors.

Statement of Intent:

This campaign is an exercise of my **Article 10** right to freedom of expression. It is not an attempt to pre-judge the outcome of the case, but a necessary step to ensure that a fair outcome is even possible.
