

Affidavit of Buppha Wittaya-Amponpunt

I, Buppha Wittaya-Amponpunt, declare under penalty of perjury that the following is true and correct to the best of my knowledge:

1. Personal Background

- Full name: Buppha Wittaya-Amponpunt
 - Nationality: Danish
 - Occupation: Unemployed
-

2. Summary of Experience

I am submitting this affidavit to record and affirm that I have been the victim of a prolonged and systematic pattern of illegal surveillance and organised harassment, which I believe to be unlawful and in violation of my human rights.

3. Origin of Harassment

- Approximate date the harassment began: In or around July 2024. But it started with online harassment first from around April 2024 and escalated exponentially in or around July 2024.
 - Circumstances preceding the harassment (e.g. whistleblowing, workplace conflict, relationship breakdown, public allegations, activism): I made a formal police complaint in January 2023 against two police officers, PC Jonathan Miotti and PC Andrew Ngo.
 - Initial signs or incidents that made me suspect I was being targeted: When I started my full-time studies at the University of West London in October 2023 and discovered that my private and sensitive information appeared to have been reflected in the teaching materials.
-

4. Tactics and Patterns Observed

I have experienced the following recurring tactics, which appear coordinated:

(Please tick or expand as appropriate)

- A decade-long illegal, intrusive surveillance, operating 24/7 and everything I do is being non-consensually recorded, both with video and audio, distributed and live-streamed for profit and for harassment
- The illegal recordings of me have also been turned into commercial products such as commercials and films, produced by major corporations and film studios such as Coca-Cola and Warner Bros, seen by millions if not billions worldwide without my knowledge or consent and without me receiving anything for it
- Being harassed and intimidated by housemates, Jobcentre staff, security personnel, hospital staff and almost by everybody, suggesting severe harassment and social ostracism
- Being followed or surveilled by strangers
- Noise harassment (e.g. tapping, beeping, coughing)
- Vehicle harassment (e.g. staged near misses, convoys, heavy vehicles driving past residence at night, aggressive motorcycle and vehicle acceleration, and even loud low-flying planes)
- Smear campaigns or sabotage of my reputation
- Psychological tactics designed to destabilise or intimidate
- Interference with employment, housing, or healthcare
- Manipulation or interference involving family, friends, or colleagues
- Involvement of law enforcement, private security, or public officials
- Electronic harassment (e.g. strange phone/device behavior, V2K)
- Isolation or attempts to discredit my mental health

5. Impact on My Life

- Physical and mental health effects: I suffer constant, sharp left-side chest pain and chest palpitations due to severe daily harassment and intimidation - mostly by housemates, believed to be acting on behalf of the defendants in my claim - particularly the state actor public official defendants
 - Impact on work and finances: Every job I have applied for has been rejected, suggesting **Human Rights Violations:**
 - **Right to Work Infringement:** A violation of Article 6 of the International Covenant on Economic, Social and Cultural Rights (ICESCR), which guarantees the right of everyone to the opportunity to gain their living by work which they freely choose or accept.
 - **Deprivation of Livelihood:** A broader legal and human rights concept used when state-imposed economic measures directly prevent an individual or family from securing basic survival needs.
 - Effects on family, relationships, or social life: My relationship with my daughter has completely been destroyed. I also experience severe social ostracism, affecting both my social life and relationships.
 - Effects on sense of safety and freedom: Consequently, I live in total isolation, which might be the State-actor Defendants' ultimate goal to cut me off from all routes to help and support. Every time I go out, I will also be severely harassed to restrict my freedom of movement as well and to make me feel unsafe everywhere I go.
-

6. Efforts to Seek Help

- Authorities or institutions contacted: I have contacted various authorities and organisations in vain. Even **Amnesty** refused to help me, strongly suggesting interference. Also, because at the time I contacted these authorities or institutions, I didn't know that all my movements and even my devices were under constant illegal surveillance. So, the perpetrators were able to see whom I had tried to seek help from and immediately influenced or manipulated them not to help.
- Response received (if any): No one wants to help me or takes on my case.
- Mental health professionals consulted: None. Because I know they won't give me impartial advice anyway due to external interference.
- Legal support attempted: I have contacted a large number of solicitors and organisations. But no one wants to take on my case and help me, strongly suggesting

external influence once again.

- Media or organisations contacted: None for the same reasons.

7. Supporting Evidence

I refer to my Witness Statements, Exhibits and related documents.

8. Declaration

I affirm that everything stated above is true to the best of my knowledge. I make this statement willingly for the purpose of truth, transparency, and any lawful investigation or public awareness effort.

Signed: 

Buppha Wittaya-Amponpant

Date: 10 October 2026
