

Proposal to optimize post-breakout room meetings

1. “Moderator guidelines” is an informal contract between the community and the moderator, which:
 - 1.1. Defines rules and responsibilities that moderator should act by;
 - 1.2. Expresses powers that the community grants to the moderator;
 - 1.3. It has these limitations:
 - 1.3.1. It (as well as the moderator it assigns powers to) cannot prevent councils from passing proposals using [Eden+Fractal process](#). As long as councils signal their consensus to the community in an unambiguous way, they can pass proposals;
 - 1.3.2. Rules expressed in “Moderator guidelines” cannot override rules set by [Eden+Fractal process](#) document or this document;
2. Proposal to set specific “Moderator guidelines” is passed using [Eden+Fractal process](#);
3. Proposal to make someone a moderator is passed using [Eden+Fractal process](#). Moderator can be changed or removed using the same process;
