

INVESTIGATIVE BRIEF: SYSTEMIC CROSS-BORDER TORTURE, POLICE COLLUSION, AND SUBVERSION OF HUMANITARIAN SAFETY (UK, DENMARK, GERMANY, SPAIN and Rest of World - Transnational Repression)

FOR IMMEDIATE RELEASE / INVESTIGATIVE DESK ASSIGNMENT

SOURCE: Buppha Wittaya-Amponpunt

URGENT: Mass Surveillance, Decade-long Sexual Abuse & Exploitation Via Hidden Cameras and Severe Harassment of Litigant Without Legal Support

TOPIC: Cross-Border State Espionage, Witness Intimidation, and Cyber-Exploitation Across Europe, Particularly The Four European Jurisdictions (UK, DK, DE, ES), And Rest of World!

MISSION: To expose the ongoing abuse, retaliation, and systemic cover-up targeting a female survivor of unlawful surveillance, sexual abuse & exploitation via human trafficking / enslavement / cybersex trafficking through 24/7 non-consensually recording with hidden cameras and audio recording devices, data theft, state-sponsored harassment, severe witness intimidation, smear campaign, block access to lawyers and human rights groups and many more illegal acts, the exact same abuses and exploitation also extend to her adult Danish daughter living alone in Germany — and to demand immediate protection, legal support, and accountability before irreparable harm is done.

PUBLIC INTEREST DISCLOSURE: SYSTEMIC SURVEILLANCE AND COVER-UP IN HUMANITARIAN SANCTUARIES

ATTENTION: INVESTIGATIVE & HUMAN RIGHTS DESKS

This dossier is not just a personal or isolated grievance. It is a formal exposure of a widespread, systemic violation of human dignity, bodily privacy, and institutional trust impacting the entire resident and employee population at a Danish Red Cross facility for women in Hvidovre, Denmark.

Evidence filed concurrently before the European Court of Human Rights (Case Reference No.: 35035/26) and the Danish Civil Courts (Case Reference No.: BS-47916/2026-KBH) demonstrates that shared bathroom and shower facilities—used daily by unsuspecting residents and staff—have been subjected to illicit, non-consensual digital recording.

Despite explicit, detailed notifications routed through the official, externally monitored whistleblower channels managed by the state's law firm, **Poul Schmith/Kammeradvokaten**, an absolute wall of silence has been maintained. By keeping both the staff and the vulnerable residents entirely in the dark, the administrative gatekeepers have allowed these mass privacy

violations to continue uninterrupted. This disclosure is issued publicly to break the administrative blockade, protect the unsuspecting victim class, and force an independent international inquiry into transnational repression and institutional complicity.

THE MECHANICS OF AN ACTIVE CONSPIRACY: GASLIGHTING AND FINANCIAL LEVERAGE

This dossier exposes the sophisticated administrative machinery deployed by the defendants to ensure the victim class remains permanently neutralized and unaware of their exploitation.

The systemic cover-up relies on a calculated multi-tiered strategy:

1. ACTIVE GASLIGHTING: Shelter management and administrative staff utilize psychological manipulation to suppress internal inquiries, systematically deflecting concerns raised by residents or employees regarding illicit physical and digital vulnerabilities.

2. FINANCIAL INDUCEMENT & LEVERAGE: Exploiting the extreme vulnerability of the resident population, the administration leverages access to basic housing, stipends, and survival resources to ensure absolute compliance and prevent outward reporting.

3. INSTITUTIONAL IMMUNITY: By routing all high-level notifications into a dead-end whistleblower portal managed by the government's own law firm, **Poul Schmith/Kammeradvokaten**, the state has insulated itself from accountability.

This is an active, ongoing operation. Leaving these gatekeepers unexposed guarantees the indefinite expansion of this illicit surveillance grid and ensures that dozens more unsuspecting men, women, and children will be victimized, recorded, and systemically silenced under the guise of humanitarian aid.

GOALS:

1. Expose how corrupt state actors sexually abuse & exploit vulnerable women and men in various settings through secret filming by illegally installing hidden cameras and audio recording devices without their knowledge or consent - even in shared bathroom and shower facilities. Despite multiple complaints to various oversight bodies, these entities refuse to investigate and thereby allow the corrupt state actors to carry on their illegal enterprise under the radar.
2. Publicise the continuous abuse suffered despite court proceedings.
2. Demand emergency legal aid and solicitor support.
3. Call for independent investigation into the surveillance and intimidation network.

4. Build pressure on public bodies and courts to protect the litigant's rights under Articles 2, 3, 4, 5, 6, 8, 13 and 14 of the Human Rights Act.

THE HOOK:

This dossier details an unprecedented, state-sponsored campaign of cross-border retaliation, illegal surveillance, and torture targeting Buppha Wittaya-Amponpunt, currently residing in Denmark, and her 35-year-old Danish daughter living alone in Germany. High-level state officials and compromised law enforcement are weaponizing public resources and cross-border databases to track the victims across four European jurisdictions and continents. An emergency Rule 39 application had been filed with the European Court of Human Rights on 12 September 2026 (ECHR Case Ref: 35035/26) requesting immediate public proceedings to pierce this administrative cover-up. Unfortunately, the application was rejected.

1. THE CORE SCANDAL

This alert exposes a high-resource, extraterritorial campaign of witness retaliation and psychological warfare conducted by UK and Danish state actors (including police organs and high-ranking public officials such as the former UK PM **Keir Starmer**). The campaign spans predominantly the UK, Denmark, Germany and Spain. It is explicitly designed to force the withdrawal of an active lawsuit regarding gross human rights abuses, misfeasance in public office, human-trafficking ring / cybersex trade, large-scale corruption, money laundering, organised crime, mass misuse of private information, commercial exploitation on a massive scale, conspiracy to injure & exploit by unlawful means, and other related illegal acts, and to sabotage an imminent **UK High Court Proceedings, Injunction Hearing and Rule 39 Emergency Application** before the ECHR. They have successfully sabotaged it when her **UK High Court Proceedings, Injunction Hearing and Rule 39 Emergency Application** were recently rejected.

2. THE JUDICIAL CAUSE-AND-EFFECT TIMELINE

- **The Trigger:** The **Royal Courts of Justice (King's Bench Division – Media and Communication List)** actively scrutinized the substantive evidence against high-profile UK state actors, including Keir Starmer, and formally **sealed the injunction application on 21 June 2026** and asked the applicant for her availability to attend the injunction hearing.
- **The Retaliation:** Immediately following the sealing of the file, the defendants bypassed judicial authority, deploying covert operations to target the applicant and her family across borders. One of the UK state-actor defendants, **the Commissioner of Police of the Metropolis**, has retained the multinational law firm **DWF Law LLP** to stall the active claim while operations continue on the ground.

3. TRANSNATIONAL CRIMINAL OPERATIONS GROUND LOGS

- **United Kingdom & Denmark (Tactical Intimidation):** The applicant was forced to flee the UK due to severe witness intimidation and extreme psychological torture. Identical, high-resource tactical assets—specifically **low-flying law enforcement/state helicopters**—have been employed in Denmark as well to harass and intimidate her by conducting maneuvers past her window immediately after she updates her legal drafts. This proves real-time device interception and inter-state collusion to ensure "no safe haven."
- **Germany & Spain (Sexpionage & Cyber-Exploitation):** In direct retaliation, a Spanish national has been deployed in Germany as a "sexpionage" (honey-trap) asset to control the applicant's adult daughter (a Danish national residing in Germany). Mimicking the state-perpetrated tactics exposed in the ECHR precedent ***Khadija Ismayilova v. Azerbaijan***, hidden cameras have been illegally installed in the daughter's German residence, and non-consensual intimate recordings are being commercially distributed on pornographic networks as corporate-state extortion. Every attempt to warn her daughter is met with evidence tampering, severe witness intimidation and harassment, suggesting an implied admission of guilt.

4. ACTIVE JUDICIAL ESCALATIONS

Formal, binding criminal complaints and emergency notifications have been legally transmitted via verified fax to:

1. **The ECHR (Strasbourg):** Under an active Rule 39 emergency injunction framework, which was recently rejected.

Soon to be faxed as well:

2. **The German Federal Prosecutor General (Generalbundesanwalt):** For state-sponsored espionage (§ 99 StGB) and human trafficking on German soil.
3. **Spain's Audiencia Nacional:** Invoking absolute extraterritorial jurisdiction over the Spanish asset.
4. **The Danish Ombudsman.**

VERIFIABLE EVIDENCE AVAILABLE TO CHOSEN OUTLETS: Full chronological logs, timestamps of aerial maneuvers linked to device usage, metadata, and official High Court reference numbers.

THE CORE EVIDENCE TIMELINE:

- **July 2024 (Keir Starmer became UK PM on 5 July 2024):** The campaign begins following the victim exposing corruption, illegal surveillance, sexual abuse & exploitation via hidden cameras and audio recording devices, mass misuse of private information, gross human rights violations, misfeasance in public office and more. The victim also

plans to initiate court proceedings and apply for an urgent injunction application in the UK high court, The Royal Court of Justice (King's Bench Division - Media and Communication List). High-level retaliation is initiated utilizing state assets.

- **21 June 2026:** The victim amends her urgent injunction application, adding the **UK PM Keir Starmer** as a formal defendant as well, and resubmits it. On the same day, the high court officially seals her injunction application and asks her for her availability to attend the injunction hearing. The very next day, on **22 June 2026**, Keir Starmer abruptly resigned as a UK PM. Simultaneously, while he's announcing his resignation outside Number 10 Downing Street, the victim experiences a sharp increase in severe witness intimidation and extreme psychological torture, causing her to flee the UK to Denmark. Local authorities appear compromised. Communications devices are confirmed compromised via sophisticated digital hacking. This clearly suggests that digital and physical tracking persists across international borders, indicating the unauthorized weaponization of state intelligence or law enforcement databases.
- **12 August 2026:** While residing in Sundholm homeless shelter, located at Herbergscentret Sundholm, Sundholmsvej 14A, Amager, 2300 København S, Danmark, the victim gets struck in the head right after she has finished adding more crucial information and evidence, particularly regarding the former UK PM **Keir Starmer's** possible involvement, to her Rule 39 application.
- **18 August 2026:** The victim seeks emergency protection at a Red Cross Shelter for women only located at Kettegård Alle 14, 2650 Hvidovre, Denmark.
- **18 August 2026 – Present:** Local shelter staff are successfully compromised and subverted by high-level state influence. The victim is subjected to active containment, blocked from contacting human rights organizations and lawyers, and subjected to severe Article 3 violations—including an active, **continuous 3-month deprivation of basic human hygiene and showers**.
- **Ongoing (3-Month Duration):** The victim is consequently subjected to active Article 3 violations through the installation of hidden, illegal camera infrastructure inside her room, shared bathrooms, and showers. This weaponized surveillance forces a near 3-month deprivation of basic hygiene, as using the facilities results in being live-streamed 24/7. The local **Red Cross shelter management** is actively complicit, allowing these severe sexual offenses and privacy breaches to continue in shared communal spaces.
- **22 August 2026 (2:38 AM):** Immediately after drafting ECHR legal strategies on a compromised device, the victim faces immediate physical retaliation inside the **Red Cross shelter**. A male night staff member named Steven uses real-time movement tracking to intercept her outside her room after she has just come out of the bathroom, exposing unauthorized distribution of her identity files within the staff network to conduct targeted psychological and sexual harassment in the middle of the night.
- **Current Status (Active Cyber-Interference in Denmark):** The victim is currently under continuous digital surveillance while located in Denmark. An urgent application has been submitted to the ECHR requesting a mandatory, independent forensic IT audit to trace illegal tracking signatures back to subverted officials within Danish national security, intelligence, or police networks (including NSK, PET, TET, or DUP), exposing the weaponization of state infrastructure for cross-border retaliation.

- **Ongoing (Digital Censorship & Containment):** The victim attempts to warn her adult Danish daughter about the active hidden cameras and audio recording devices, which may have also illegally been installed in her residence to sexually abuse & exploit her as well, via a public social media post (Facebook). The compromised network immediately intercepts the communication, deletes the post, and blocks the victim's account profile. This real-time digital tampering confirms active, live monitoring of her internet use to prevent disclosure of the sexual offenses occurring inside her daughter's accommodation in Germany as well. This falls therefore under an organised crime, money laundering and sex-trafficking ring.
 - **Recent Date:** Perpetrators are made aware that an international Rule 39 application is imminent. They refuse to halt the abuse, choosing instead to escalate illegal digital hacking and containment to intercept the legal filings.
 - **Current Date:** An emergency, analog paper filing is successfully transmitted via secure international fax to the ECHR Registry in Strasbourg, explicitly requesting a public press release under Rule 33 § 1 due to mass public interest. But the application was rejected, as mentioned earlier.
-

WHY THIS IS A STORY OF MASS PUBLIC INTEREST:

1. **Systemic Cross-Border Failure:** Proves that a network of subverted officials can bypass European border security and judicial cooperation to torture a victim and her adult Danish daughter with total impunity across four countries, across Europe, and even rest of world.
2. **Infiltration of the Red Cross:** Exposes a severe, localized corruption breach within a globally trusted, anti-torture humanitarian apparatus.
3. **Abuse of Public Power:** Documents the illegal use of state cyber-surveillance tools and public funds for personal, malicious retaliation against an individual.
4. **High Risk of Mass Psychological Collapse and Suicide:** The Red Cross facility is a women-only sanctuary housing highly vulnerable survivors of trauma. The weaponization of hidden cameras in shared intimate spaces means dozens of vulnerable women are being actively sexually exploited without their consent. Exposing this under-the-radar operation is a matter of absolute public urgency to prevent severe psychological harm, self-harm, or loss of life among the unsuspecting residents.
5. **Total Erosion of International Public Trust:** This case documents the complete subversion of a renowned international humanitarian apparatus. If a global organization mandated to combat torture can be compromised by state actors to facilitate illegal surveillance and sexual offenses within its own facilities, it reveals a profound collapse of the European humanitarian framework. This makes public exposure vital to protect other vulnerable residents who believe they are entering a "safe haven."
6. **Systemic Multi-Jurisdictional Recidivism:** This campaign is not localized. The exact same infrastructure—hidden cameras, device hacking, and staff manipulation—has been

deployed in multiple shelters, accommodations, hostels, and so forth, across different countries wherever the victim seeks safety.

7. **Prior Judicial Knowledge:** The UK courts and law enforcement were formally notified of these crimes before the victim fled the jurisdiction. Despite official notice, the perpetrators have been permitted to use state resources to continue their campaign across European borders, and possibly the rest of the world as well, with total impunity, demonstrating a massive institutional cover-up.

GOAL SUMMARY:

We call upon Parliament, the Ombudsman, and human rights oversight bodies to immediately intervene in a case of ongoing harassment, cross-border illegal surveillance, transnational repression and obstruction of justice against a litigant, who is being forced to self-represent in a complex privacy and abuse case and is also forced to flee the UK to Denmark due to severe witness intimidation and torture.

Despite filing legal claims and an injunction application, the abuse continues and escalates, expanding into Denmark.

WE DEMAND:

- Immediate solicitor appointment or court referral under Article 6 ECHR;
- Protection from retaliation and witness intimidation;
- Investigation into the unlawful data interception and human experimentation;
- Public accountability for those behind the abuse.

CONCLUSION

I, Buppha Wittaya-Amponpunt, am a litigant in a serious case involving prolonged and systematic harassment, covert surveillance, sexual abuse & exploitation via hidden cameras for more than a decade, and suspected misuse of state and corporate power — including illegal data interception, hidden camera installation, and psychological intimidation tactics that continue daily, even after I issued legal proceedings in the UK and Danish courts.

I am currently self-representing in a complex litigation against powerful defendants, including the former UK PM Keir Starmer, police forces and police officers, tech companies, educational institutions, tech tycoons such as Elon Musk and Mark Zuckerberg, giant tech corporations such as Google, and major film studios such as Warner Bros. I have filed for an injunction and am seeking relief for grave breaches of privacy, sexual exploitation via hidden cameras, racial harassment, and retaliation for whistleblowing.

Since I began court proceedings, the abuse has escalated, not subsided. The level of intimidation now includes:

For Injunction Application and Court Proceedings in Denmark
Case No.: BS-47916/2026-KBH
by Buppha Wittaya-Amponpunt

- Real-time stalking coordinated with my movements;
- Symbolic harassment using color-coded clothing, gestures, and timed noises;
- Mocking behavior and emotional abuse in shared hostels, shelters and more;
- Hacking of devices, interception of emails and legal files;
- Death threats, kidnapping plots, poisoning attempts, and possible efforts to push me to suicide.

I have no solicitor. Every attempt to obtain legal help has been blocked or intercepted. I am under constant, intrusive surveillance via hidden cameras and audio recording devices illegally installed in every place I live operating 24/7, forced to document evidence daily while trying to survive, with no income, home, or secure place to prepare my case.

This case represents a larger issue: the breakdown of accountability when power is abused and victims are silenced. I would be grateful if you would consider:

- Reviewing a summary of my case documents;
- Advising whether you (or your outlet) can cover the story or recommend legal/human rights organisations;
- Connecting me, if possible, to legal professionals or advocacy networks.

Thank you for your time.

Yours sincerely,

Buppha Wittaya-Amponpunt
