Thank you for your email.

We are sorry to hear about your situation. Unfortunately, we are unable to offer assistance to you as we have limited resources, and as a campaigning charity, we must focus them on our research and campaign work, and we are unable to assist in all individual cases.

Kind regards
The Communications Team

Subject: Incident - Buppha Wittaya-Amponpunt United Kingdom - Country of incident GBR 2024-01-01

My name is Buppha. I am writing to you because I believe the police and the authorities have violated my human rights in a lot of ways, for example, by putting me under illegal, intrusive surveillance, intercepting my computer and communications at all times and phone tracking me whenever I go out for the purposes of harassment, intimidation and control, including influencing the members of the public to harass me, which make my life very difficult.

I believe they have been doing this to me for years without me knowing it. I just began to notice this last year.

When I try to to get help from a lawyer to help me stop this, the police even seem to harass and intimidate me to silence me. This is not right. It's also like violence against women.

I have also contacted about 200 solicitors or more so far but not even one wants to help me. Something is not right going on. I therefore think they're allegedly monitoring all my online activities and communications at all times to prevent me from seeking help. So, as soon as they see me email a solicitor about this case, they will influence that solicitor not to help me. This is also severe discrimination and the violation of my right to have a legal representation.

I really don't know what to do since this case is difficult and complex and without an impartial lawyer to help me with this, they will have the upper hand.

Even now I am in Denmark, the harassment, including illegal surveillance, and intimidation also continue here. I therefore think the British police and the authorities have influenced the Danish police to do the same to me here as well.

I have already complained to the Investigatory Powers Tribunal about this. But the investigation can take time. This matter is urgent, and I need to stop it as soon as possible since I can't continue to live like this.

Could you please help me with this?

I thank you in advance for your assistance in this matter, and I look forward to hearing from you soon.

Yours sincerely,

Buppha Wittaya-Amponpunt

Amnesty International UK

Thank you for your enquiry

I believe the British police and the authorities have violated my human rights, for example, by putting me under illegal, intrusive surveillance for the purposes of harassment and control, including influencing the members of the public to harass me every single day.

I also believe they're doing the same thing to my daughter and even using a CHIS with her pretending to be her new boyfriend. This is so wrong and unlawful.

I have also contacted about 200 solicitors or more so far but no one wants to help me. Something is not right. I therefore think they've influenced those lawyers not to help me. This is also severe discrimination and the violation of my right to have legal representation.

Even now I am in Denmark, the harassment, including illegal surveillance, also continues here. I therefore think the British police have influenced the Danish police to do the same to me here as well.

I have already complained to the Investigatory Powers Tribunal in the UK about this. But the investigation can take time. I just need to stop this as soon as possible since I can't continue to live like this anymore.

Could you please help me with this?
