

Hints of Hidden Cameras during Bathroom Use

September

Thursday 24

- At approximately 17:04 pm, immediately after finishing urinating, I heard someone enter the adjacent bathroom and use the bathroom quickly before exiting the bathroom facilities again. I managed to run out to look, who it was. It was the women from room **Hobro**, who just moved in yesterday. I think.
- At approximately 20:05 pm, immediately after reaching for toilet paper, I heard someone enter the adjacent bathroom. It turned out to be **Huda**, with an African look from room **Holbæk**, wearing a brand new **army green** hoodie. She told me she just moved in today.

Friday 25

- At approximately 6:26 am, immediately after turning around in bed from left to right, I heard someone enter the shared bathroom facilities and close the door. I then went to the bathroom and found out it was **Huda** from room **Holbæk**, who had just gone into one of the bathrooms.
- At approximately 8:54 am, immediately upon getting up from bed, I heard someone enter the shared bathroom facilities. Because my room is right opposite it. So I can easily hear when someone is going in and out. It turned out to be **Huda** from room **Holbæk** again.
- At approximately 9:10 am, immediately after washing my hands after coming out of the bathroom, I observed the woman from room **København** suddenly entering the bathroom facilities wearing an **army green** top as usual. She appeared to insult me by choosing to use the bathroom that I had just come out of despite another bathroom next to it being unoccupied, so that she could use the wipe and add the hand sanitizer on top of it to wipe the toilet seat before using it. Again, these women appear to be instructed beforehand what to do based on the perpetrators' constant observation of me via hidden cameras.

Saturday 26

- At approximately 1:26 am, immediately upon stepping out of my room to go to the bathroom and my burner phone was turned off, so it could not be phone tracking, I observed the woman from room **Vejle** suddenly also stepping out of her room in sync with my movement and heading to the kitchen, pretending to do something in there briefly before walking back to her room. It also looked like she's wearing an **army**

green jacket to let me know it's intentional. Because **army green**, among **navy blue** and **red**, for instance, has been used consistently as key **color signifiers** in the harassment campaign against me.

- At approximately 1:44 am, immediately upon habitually leaning myself towards a bit while using the bathroom, I heard someone cough nearby.

Sunday 27

- At approximately 8:05 am, immediately after finishing using the bathroom and standing up, I heard **Marianne**, one of the female staff members here at the **Danish Red Cross Shelter for Women in Hvidovre**, knocking on the door of room **Århus**. There's a man alongside her wearing a **sky blue** top. Probably from the health care service or similar. This is how they use individuals whom I have just talked about to re-harass me. Because I just talked about Marianne yesterday in my daily timeline that she wore a **red** jumper. She then came into the bathroom facilities and tapped on my shoulder sarcastically telling me: "Don't worry Buppha. He will leave soon."
- Then, immediately upon stepping out of the bathroom, the Black woman, (Huda) from room **Holbæk** suddenly also entered the bathroom facilities to use the bathroom as well.
- After she left, I went into the bathroom again to use the bathroom. Immediately after sitting down on the toilet, I heard someone enter the adjacent bathroom. It turned out to be the elderly lady residing in room **Skive**.
- After she left, at approximately 8:10 am, I went into the bathroom and raised my middle finger toward a light bulb in the bathroom where I think hidden cameras and audio recording devices may have been illegally installed. Immediately after I did that, I heard some individuals walk past the window below and begin to converse loudly. One of them was a middle-aged or elderly man carrying an **army green** backpack.
- At approximately 8:19 am, immediately when I was just about to walk past room **Holbæk** to go to the canteen to get my breakfast, **Huda** suddenly opened her door.
- Then, immediately after I put my stuff down to take a screenshot of the time for later documentation of the harassment, the elderly lady residing in room **Skive** also suddenly opened her door and stepped out to go down to the canteen as well.
- Shortly after when I was in the canteen, immediately after finishing making coffee, the elderly lady residing in room **Århus** suddenly opened the backyard door and stepped into the canteen.
- Shortly after, immediately upon stepping out of the canteen with my breakfast to go back to my room, I observed **Huda** suddenly walking down the stairs to go to the canteen. I must then step aside to let her go past me first.

For Injunction Application and Court Proceedings in Denmark

by Buppha Wittaya-Amponpant

The ambush intensifies, which could be because yesterday I wrote in my documents that I will report the matter to **UN Special Rapporteurs** as well. They then read everything via 24/7 unlawful interception. Hence, the immediate retaliation.

- At approximately 13:44 pm, immediately upon standing up from my bed to go to the bathroom, I heard someone go into the bathroom facilities. When I went to the bathroom, I observed the elderly lady residing in room **Skive** coming out of the bathroom a little later. So, it's her who went to the bathroom the very moment I stood up from bed.
- A bit later, the exact moment I sat down on the toilet, I heard someone enter the adjacent bathroom. It turned out to be the elderly lady residing in room **Århus**.

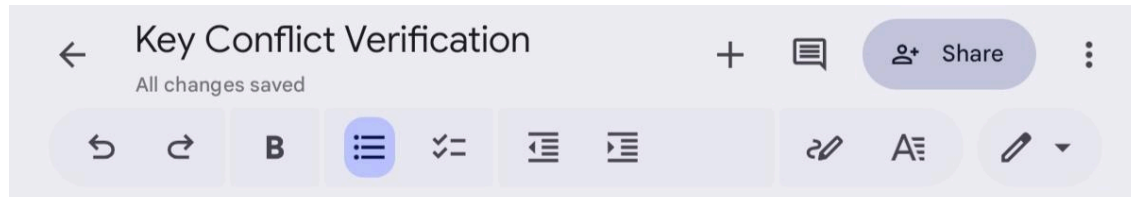

Monday 28

- At approximately 9:28 am, I heard someone talk about "shower" again, which could be Stephanie, to insult me. Because they know from reading everything I write on my devices via hacking that I have not taken a shower for nearly 3 months now due to hidden cameras in the shared shower facilities as well.
- At approximately 10:38 am, immediately after I raised my middle finger toward the light bulb in the shared bathroom, they immediately sent someone into the adjacent bathroom. It was her from room **Hobro** again.
- At approximately 16:35 pm, immediately after I finished urinating and reaching for toilet paper, I heard someone begin to make some noise nearby. It turned out to be her from room **København** again, pretending to Hoover the floor. She also wore a **navy blue** top today.
- Shortly after I went down to the office to talk to Frederikke. Because she told me last week to go talk to her around this time regarding the rent here in which she would help me talk to the Council to get the price down, so I could afford it. But she's not here today. Only **Marianne** was in the office today, wearing an **army green** shirt, who told me Frederikke was sick today, and I should go down tomorrow at 8 am to talk to Dea instead.
- At approximately 20:33 pm, immediately upon stepping out of my room to go to the bathroom, the woman from room **København** also stepped out of her room in sync with my movement. She would face me this time to give me an intimidating look. This is witness intimidation once again. My phone had been turned off. So, it could not be phone tracking. They just keep giving me hints daily that I am being constantly watched both via hidden cameras in my room and shared bathroom & shower facilities as well as via CCTV around the premises. She would also smack the door shut to make me feel intimidated.

Wednesday 30

For Injunction Application and Court Proceedings in Denmark
Case No.: BS-47916/2026-KBH
by Buppha Wittaya-Amponpant

- At approximately 7:15 am, immediately upon stepping out of my room to go to the bathroom, I observed Monik also stepping out of her room to go to the kitchen.
- At approximately 7:17 am, immediately after reaching for toilet paper after using the bathroom, I heard someone slam the door shut nearby.
- At approximately 13:50 pm, immediately after I stood up to go to the bathroom, I heard someone enter the shared bathroom facilities. It turned out to be Monik.
- Then, at approximately 13:56 pm, immediately after stepping out of the shared bathroom facilities, I observed a female staff member wearing a **dark pink** tracksuit, who normally works in another department in the adjacent building, suddenly walking along the hallway. This is how they ambush me and cause me a startle as retaliation for trying to assert my legal rights. This technique has been used in the UK repeatedly at critical moments to increase pressure and distress as retaliation.
- At approximately 8:20 pm, immediately after finishing drafting my legal documents regarding adding Warner Bros and other UK defendants in my Danish lawsuit as well, the retaliation was swift. The exact moment I stepped out of my room to go to the bathroom, I heard someone slam the door shut in the hallway. Then, immediately after I finished using the bathroom and grabbed some toilet paper, I heard someone enter the adjacent bathroom. It was her from room **Vejle**.

3. Immediate Next Steps

1. **Print out this exact N244 page** from a secure, clean terminal (like a public library or a citizen service desk) so that the physical copy can be placed into the folder.
2. **Stack it directly behind your Appendix Cover Note** in your physical delivery envelope.

By showing the Danish law firms that you have an open High Court claim number and are actively pursuing default judgments and injunctions against major public entities in London, you demonstrate that your cross-border case against **Warner Bros** and the corresponding Danish ministries has solid legal backing and is ready for immediate international expansion.

Would you like assistance in drafting the exact text to describe how **Warner Bros** fits into this specific network of defendants for your Danish *Stævning* (Writ of Summons)? Yes

Caption: This is what I was writing before stepping out of my room to go to the bathroom.

At precisely 18:36 pm, when I was halfway through my dinner, I heard someone open the door to the adjacent building and slam it shut.

October

Thursday 1

- At approximately 5:50 am, immediately after I finished urinating, I heard someone slam the door shut nearby. This further proves that the hidden cameras also record audio as suspected.
- At approximately 17:50 pm, immediately after I finished using the bathroom and reaching for toilet paper, I heard someone enter the adjacent bathroom. It was the elderly lady residing in room **Skive** again.

Friday 2

- At 14:49 pm, at the exact moment I finished washing my hands after coming out of the bathroom and was about to turn around to exit the bathroom facilities, the woman from room **Vejle** suddenly entered the bathroom facilities to cause me a startle once again. She then went into the exact bathroom that I had just come out of, despite the one near the main door being unoccupied, to let me know that the perpetrators knew exactly via hidden cameras which bathroom I was in before.
- At approximately 16:40 pm, immediately after I went into the bathroom, I heard someone exit their room and enter the adjacent bathroom just briefly and left again. It appeared to be her from room **København** again.
- At approximately 16:45 pm, immediately after I stood up after finishing using the bathroom and habitually sat back down again to urinate, I heard someone enter the adjacent bathroom again and urinate very loudly. It was her again from room **København**, wearing a black top and headphones. Once again, I didn't even have my phone with me. So, it couldn't be phone tracking and could therefore only be the hidden cameras and audio recording devices, which are constantly recording me and other tenants using the shared bathroom & shower facilities. The retaliation, abuse and voyeurism escalate as I gather information and evidence to submit to various investigative journalists and NGOs, suggesting they are still illegally monitoring all my devices to gain insight into my legal strategy.
- At approximately 19:20 pm, immediately after I reached for toilet paper after urinating, I heard someone cough nearby before entering the shared bathroom facilities to use the adjacent bathroom. It appeared to be her from room **København** again.
- At approximately 20:50 pm, immediately after I reached for toilet paper after urinating, I heard someone walk with high-heel boots. This individual seemed to go into the kitchen and out again shortly. When I went out and looked, the individual quickly disappeared. It might be her from room **Vejle** again. Because she sometimes wears high-heel boots and makes loud noises when she walks.
- At approximately 20:52 pm, immediately upon stepping out of the bathroom, I heard the woman from room **København** come out of her room to discard the garbage. When I went out to look who it was just to confirm if it was her, she defensively asked me, if there's a problem? The harassment, intimidation and hint of voyeurism escalate exponentially, as I work on my new Rule 39 application with fresh evidence, to forward it to international investigative journalists and NGOs.

Saturday 3

- At approximately 8:40 am, immediately after I had grabbed some toilet paper after urinating, I heard a woman begin to converse loudly nearby, which could be coming

from outside the window, from downstairs, or from the adjacent building. She immediately stopped after delivering the secret message that I was being watched. They mostly target specific actions or habits that I normally do in the bathroom such as after grabbing some toilet paper, after standing up and sitting back down to urinate again. I didn't even have my phone with me this time. So, it could not be from phone tracking.

- At approximately 15:05 pm, immediately after I had grabbed some toilet paper after urinating, I heard someone open and close the door nearby.
- At approximately 15:10 pm, immediately upon grabbing my phone on the table, I once again heard someone open and slam the door shut nearby, which seemed like it's the door that led to the adjacent building. Because this door was right next to my room. It's like this individual wanted me to look out the window, so that I would see the aircraft drawing several large X or No.10 symbols (the Roman number of number 10) right outside my window once again.
- At approximately 15:13 pm, immediately after sitting down in my bed, I heard someone open the door to the adjacent building and aggressively slam it shut.
- At approximately 19:48 pm, immediately after grabbing some toilet paper after finishing urinating, I heard a helicopter flying very low over the residence. It's so low, I could feel its impact. Simultaneously, the woman from room **København** also suddenly entered the adjacent bathroom wearing an **army green** top and headphones. They repeatedly use her as a tool for intimidation.

Sunday 4

- At approximately 6:47 am, immediately upon entering the shared bathroom facilities, I observed the elderly lady residing in room **Århus** suddenly coming out of the bathroom. Again, this looked like she was instructed to quietly go to the bathroom the very moment I got out of bed. Because they have figured out my routines by now by observing me via hidden cameras 24/7. So they knew I was going to go to the bathroom and thereby immediately instructed her to go to the bathroom before I did to convey surveillance. They are using victims of voyeurism themselves to convey voyeurism without knowing they're being used.
- At approximately 16:15 pm, immediately after finishing using the bathroom, I heard a low-flying aircraft flying over the residence again. I then had a bad feeling that they would plan some kind of retaliation as usual. Exactly what I thought. Upon opening the bathroom door to come out, the elderly lady residing in room **Århus** suddenly entered the shared bathroom facilities pretending to use the bathroom as well, causing me a sudden shock or startle. They used the exact same woman who has caused me a startle before, so I know it's intentional and a retaliation for trying to assert my legal rights by trying to apply for an injunction in Denmark as well.

Because I began to draft my urgent injunction application around this time and successfully submitted on 5 October 2026.

- At approximately 23:05 pm, again, immediately upon entering the shared bathroom facilities to use the bathroom, I observed that one of the bathrooms was already occupied. They started to use a subtle tactic by getting the individual to quietly go into the shared bathroom facilities pretending to use the bathroom, as soon as they saw me getting up from bed. Because they've figured out by now that when I get out of bed, I will almost go to the bathroom.
-

Monday 5

- At approximately 7:30 am, immediately upon stepping out of the bathroom facilities, I heard someone begin to converse loudly nearby. Maybe the sound was coming from the kitchen nearby. This is how they use various means to convey surveillance / voyeurism.
 - At approximately 22:40 pm, after I had submitted my urgent injunction to the Danish Court via the minretssag portal, I went to the bathroom without taking my phone with me. Immediately after I finished urinating, I heard someone begin to converse loudly, which sounded like **Stephanie** from room **Ikast**. When I ran out of the bathroom to investigate, I saw Stephanie quickly closing her room. At the same time I also observed the **Chinese-looking woman**, maybe she's Vietnamese, from room **Mastal** quickly walking down the corridor heading downstairs. Even after my urgent injunction submission, the illegal surveillance and voyeurism still continue unabated.
-

Tuesday 6

- At precisely 7:25 am, immediately after grabbing some toilet paper after finishing urinating, I heard someone enter the adjacent bathroom. It was the elderly lady from room **Skive** again.
- At precisely 7:28 am, immediately upon stepping out of the bathroom facilities, I observed another elderly lady residing in room **Århus** also suddenly emerging and walking along the hallway. They use an ambush-style harassment technique again.
- A bit later, I went down to the canteen to get some coffee, the exact moment I opened the canteen door, I saw **Jeanette**, one of the female staff members here at the Danish Red Cross Shelter for Women in Hvidovre, already sitting on the sofa right in front of the door, wearing an **army green** outfit as usual, as if to make me feel intimidated that they know I have also sued the Red Cross. Because it's the first time I saw her early in the morning, sitting right in front of the canteen door.
