Dear Buppha,

Thank you for writing back to me and keeping me updated, and please be assured I remain concerned and willing to help. As mentioned, I can make direct enquiries to the Police on your behalf if you would like me to do so. Please do let me know if you are happy with this course of action. In the meantime, you may wish to contact Citizens Advice Hounslow for help finding legal advice here: <https://hounslowcabs.org.uk/>.

I look forward to hearing back from you soon, and please be assured I will do what I can.

Kind regards,

Andy Slaughter
MP for Hammersmith and Chiswick

Subject: Re: Complaint about police and the authorities (Case Ref: ZA138220)

Good afternoon,

Thank you very much for your reply. I have already stated in my previous email that the police seem to have blocked my access to lawyers by influencing those solicitors I have contacted not to help me. Because they seem to illegally intercept my internet use and communications at all times, including phone tracking me, to prevent me from getting help from a solicitor. So, as soon as I contact a solicitor by email, phone call, by post and even by physically going to see them at their office myself, the police will know. So, I am not sure how I can get a lawyer to help me with this matter.

Kind regards,
Buppha Wittaya-Amponpunt

Dear Buppha,

Thank you for taking the time to contact me, and I am sorry to hear about the problems you are experiencing. I am concerned and willing to help and would therefore be grateful for some further information before proceeding. I can make direct enquiries to the Police on your behalf but would be grateful if you could confirm if you are happy with this course of action. You also mentioned your need for legal representation and advice. Unfortunately as your MP I am not authorised or qualified to provide you with legal advice, and would therefore encourage you to seek legal representation, but I can make enquiries on your behalf and would be happy to do this.

I look forward to hearing back from you soon, and please be assured I will do what more I can.

Kind regards,

Andy Slaughter
MP for Hammersmith and Chiswick

Dear Andy Slaughter,

I forgot to include my address in my previous email. So, I send you my email again with my address and contact details at the end of this email.

My name is Buppha. I live in Ealing. I am writing to you because I am experiencing severe discrimination, racial harassment, abuses and human right violations by, perhaps, the police and maybe some other law enforcement agencies and the authorities as well.

It's not just me. They seem to be doing this to my family as well, especially my daughter. Because they seem to use a covert human intelligence with her by getting him to form a romantic relationship with her, to gather as much information about me as possible, so that they can misuse it. They have seemingly already disclosed all my personal and sensitive information, probably obtained via unlawful hacking, including my medical records, to lots of people without my consent.

What happens is that I think the police and/or other law enforcement agencies as well as the authorities may have breached my human rights as well as racially harassing me by phone tracking me at all times to locate my precise locations and then get people to harass me everywhere I go.

They also seem to unlawfully intercept my computer and communications 24/7 to monitor all my online activities, to cyberstalk me and to control me, so that I cannot get help from a lawyer or organisation to help me stop this. Because I have contacted about 100 solicitors or more so far, and no one wants to help me, as if they have been told by someone with enough authority not to help me.

If I then go see a lawyer at their office instead, they then seem to get someone to intimidate me by using imitation firearms, or making it look like they have imitation firearms, pretending to shoot me to cause me fear of violence to silence me, which they seem to be doing it every time I go see a lawyer. I am still in a state of shock till this day and still have nightmares about it!

Worst of all, they, the police, seem to also have installed hidden cameras in all the places I have lived and now live, which they might have done since 2013 till this day. Then, they seem to group watch me via the hidden cameras and non-consensually share or even livestream the footage to lots of people, like my school University of West London and social media sites, for example Instagram. My lecturers have even implied many times that they know all about the hidden cameras, the footage and images taken by the hidden cameras, the unlawful surveillance and the illegal human experimentation on me. This has caused me severe emotional distress, embarrassment, humiliation and anxiety.

I cannot contact anyone for help at all by emails, phone calls or even by posts. Because they seem to monitor me everywhere to prevent me from getting help. If I contact someone for help, for example, a lawyer or an organisation, they will then know and prevent me from getting help accordingly. They probably monitor this email I am sending you now as well.

These are very serious abuses and human rights violations. Particularly, when they seem to have blocked my access to lawyers as well, so I cannot really do anything about it. If I want to sue the police and the authorities, whom I think may be behind this as well, I will then need to take legal action against the police and the authorities myself, which will be very challenging for me. Because this case is serious, difficult and complex.

I have already complained to the police about this recently. Maybe in September this year. But they neither confirm nor deny (NCND) and advised me to send my complaint to the Investigatory Powers Tribunal instead, which I am also going to. On December 24, I sent over a new complaint to the police again and asked them to record it. Because they did not want to record it when I first complained by saying it's a "low level" complaint.

But this matter is urgent, and I don't know how long the IPT will investigate my complaint. I may need to apply for an urgent injunction as well. But I cannot get any lawyer to help me with it since, as I said earlier, they seem to have blocked my access to lawyers. I may need to apply for it myself, which will be challenging for me as well. But I cannot live like this anymore, especially to live in a room with hidden cameras unlawfully installed recording everything I do in my room 24/7. It's utterly degrading and dehumanising. So, they are seemingly breaching my human rights articles 3 and 8, including many other human rights of mine that they seem to breach as well.

I am also still experiencing racial harassment and sexual harassment daily every time I go out, because they seem to use third parties by employing civilians to help them stalk, harass and intimidate me as well, causing me ongoing distress and stress and making it difficult for me to complete my complaint to the IPT. Because there's a lot of evidence to gather as well.

How did this happen?

I would therefore like the police and the authorities, if they are also behind this, to do the following:

- To acknowledge the wrongdoings and the impact this has on me
- To public an apology
- To remove the hidden cameras and destroy all videos and images they have taken by the hidden cameras, including disclosing where else and who else they have shared them to and get them to destroy those videos and images as well
- To stop unlawfully spreading my personal and sensitive information
- To stop running a harassment and smear campaign against me
- To stop blocking my access to lawyers, so that I can contact an impartial solicitor to help me with this case

Everyone has the right to bring a civil case and to have legal representation. Without this right, they will have the upper hand. Having a lawyer will also protect me from unfair treatment and discrimination. Without a lawyer, I cannot bring the case myself since this matter is serious, difficult and complex.

I thank you in advance for your help and support, and I look forward to hearing from you soon.

My full name and address are:

Good afternoon,

Thank you for your email. As I said in my previous email that I think no matter who I have contacted, the police seem to influence them not to help me anyway when I have contacted almost 100 solicitors or more so far and no one wants to help me. Because I think the police are illegally intercepting my internet use and communications at all times, knowing everything who I have tried to contact for help. Then, they seem to contact those people right away not to help me or not to give me impartial advice.

The only thing I can do now is to send my complaint to the IPT as soon as possible and to seek an injunction. I also think they are illegally installing hidden cameras in my daughter's flat in Germany as well. Because she lives in Germany. They may even have unlawfully shared her footage around as well. This is unacceptable and unlawful if this is what they are also doing to her.

Kind regards,
Buppha Wittaya-Amponpunt

Good morning,

I hope you have had a great week so far.

It's been almost a month since I wrote to you regarding this matter and had not heard anything from you since then. I therefore write to you again because after complaining to the police, the hidden cameras have not been removed yet. Because I really think they are still illegally monitoring me via the hidden cameras at all times for the purposes of stalking, harassment and intimidation.

The same with the interception and phone tracking in which I also believe they are still doing it, which I think they're doing it for the purposes of stalking, harassment and intimidation as well as preventing me from seeking help. I also think they are monitoring all my incoming and outgoing posts, so that I cannot seek help that way either. This is shocking and a severe discrimination due to my protected characteristics such as race, age since I'm 54 years old, including violence against women.

Consequently, because of the hidden cameras, I have not taken a shower for more than 2 months now. I can't live like this anymore. I can't move to anywhere either. Because no matter where I move to, they seem to install hidden cameras everywhere I live.

I want to go back to Denmark since I cannot live like this here. But I also fear that they may influence the Danish police to harass and intimidate me again. Because last summer I went back to Denmark, and the Danish police were harassing and intimidating me so much that I had to come back to the UK.

I am also worried about my daughter since I think they're doing the same thing to her. How is this allowed to happen?

Could you therefore speak to the police for me please, asking them to stop blocking my access to lawyers so I can get an impartial solicitor to help me with this case, remove the hidden cameras, stop intercepting and phone tracking me, stop harassing and intimidating me (Both by themselves and by encouraging others) and stop abusing my daughter as well as removing a CHIS from her.

I thank you in advance for your assistance in this matter, and I look forward to hearing from you soon.

Kind regards,

Buppha Wittaya-Amponpunt
