

Hints of Hidden Cameras during Defecation

September

Thursday 24

- At approximately 9:34 am, immediately after I finished defecating, I heard a loud thud nearby, which sounded like someone was slamming a car door shut. Immediately after, **Monik** from room **Fåborg** entered the adjacent bathroom and pretended to use the bathroom quickly before leaving again. Immediately after, the elderly lady, residing in room **Skive**, also entered the adjacent bathroom pretending to use the bathroom as well.
- At approximately 12:20 pm, immediately after I finished defecating and standing up, I heard someone enter the adjacent bathroom. It turned out to be the Asian-looking woman from room **Marstal**.

-
- **Friday 25** - At approximately 12:23 pm, immediately upon stepping out of the shared bathroom facilities, the woman with glasses residing in room **Ikast** also immediately stepped into the hallway in sync with my movement. I feel bad for these women acting as messengers to convey voyeurism without realising they are victims of sexual abuse via voyeurism themselves. Or, even victims of a sex-trafficking ring if the non-consensual recordings from the shared bathrooms and shower rooms have also been distributed and live-streamed for profit. The ambush-style harassment also occurred immediately after I had finished drafting my international appeal to send to various international watchdogs, further confirming that all my devices are still heavily monitored illegally, and they immediately retaliated.
 - **Monday 28** - At approximately 8:20 am, immediately after I finished defecating and standing up and then sitting back down to urinate again, I heard someone enter the adjacent bathroom. This individual remained in the bathroom for a very long time, as if to ensure I had left the bathroom before she came out. So, I wouldn't know it's her. I kept waiting until she came out and it was **Stephanie** from room **Ikast** again. They are targeting my habit again by repeatedly sending someone into the bathroom at the exact moment I sit back down to urinate, to let me know they have observed my habits daily via hidden cameras.
 - **Tuesday 29** - At approximately 7:20 am, immediately after I finished defecating, I heard someone start a car engine. Then, immediately after I finished washing my hands after coming out of the bathroom, I observed a black car suddenly driving into the parking lot and parking below the bathroom window. The kid who got out of the car also wore a **light pink** jacket similar to the **light pink** top that my daughter used

to wear. Then, the father and another kid also got out of the car, making 3 of them symbolically referring to the violation of my human right **Article 3 (Prohibition of torture, inhuman and degrading treatment)** as always by using number 3 repeatedly for maximum psychological torture.

October

- **Thursday 1** - At approximately 14:03 am, immediately after I finished defecating, I heard someone enter the adjacent bathroom. It was the elderly lady residing in room **Skive** again.
- **Friday 2** - At approximately 7:05 am, immediately after I finished defecating, I heard someone enter the adjacent bathroom. It was the tall cleaning lady. I think she's new. Because I have never seen her before. I didn't even have my mobile phone with me this time, which further proves the presence of the hidden cameras and audio recording devices in shared bathroom & shower facilities as well. At precisely **9:10 am**, immediately upon typing this incident, I heard the sirens nearby. This is how they keep suggesting that they're behind this by referring to the **No.10** as always.
- **Friday 2** - At approximately 9:17 am, immediately after saying "fuck you" toward the light bulb and the smoke detector in the middle of my room, where I believe hidden cameras and audio recording devices have been illegally installed, I heard someone slam the door shut nearby.
- **Sunday 4** - At approximately 9:05 am, immediately after I finished defecating and grabbing some toilet paper, I heard someone enter the adjacent bathroom. It was **Monik** again from room **Fåborg**.
- **Monday 5** - At precisely 8:48 am, immediately after I finished defecating, I heard someone enter the shared bathroom facilities and use the adjacent bathroom. It was **Stephanie** again from room **Ikast**. She would wash her face the exact same way I normally do, as if she was instructed to reflect what I do to convey surveillance / voyeurism that everything I do has been observed 24/7 via hidden cameras in the shared bathroom and shower facilities as well. The time ended in the number 8 to also intentionally and symbolically refer to the violation of my human rights Article 8 (Right to Privacy) of the ECHR. Then, at approximately 8:53 am, immediately upon stepping out of the bathroom facilities, I observed the woman in room **København** suddenly opening her door.
