

URGENT: REQUEST FOR EMERGENCY INTERVENTION & COUNCIL OF EUROPE SAFETY ALERT

TO: THE EUROPEAN COURT OF HUMAN RIGHTS (ECHR) Rule
39 / INTERNATIONAL HUMAN RIGHTS WATCHDOGS

FROM: Buppha Wittaya-Amponpunt (Victim / Applicant)

DATE: 25 September 2026

CURRENT EMERGENCY SHELTER: Danish Red Cross Shelter for Women (Røde Kors Herberg for Kvinder), Kettegård Alle 14A, 2650 Hvidovre, Denmark (Under active institutional harassment & surveillance)

STATUS: I have fled my previous residence due to the physical assault on 12 August 2026. However, systemic tracking, illegal surveillance, and harassment have immediately followed me to this humanitarian facility, demonstrating that my new location is compromised and that I remain at imminent risk of harm.

ACTIVE ECHR FILE: Rule 39 Emergency Application (Initially Submitted on 12 September 2026)

EVIDENCE OF SYSTEMIC OBSTRUCTION AND "PAPER REMEDIES"

- **Nature of Urgent Risk:** Imminent threat of physical elimination, extreme psychological torture, state-sponsored severe harassment, death threats and active kidnapping plots against me and my daughter following the filing of a sealed N1 Claim Form and N244 Injunction Application (**CASE NO: KB-2025-004650**) against UK state actors (e.g., the **Commissioner of Police of the Metropolis Mark Rowley**, the former UK PM **Keir Starmer**) and other high-profile defendants such as **Elon Musk, Mark Zuckerberg, Warner Bros and Google**.
- **Recent Escalation:** Violent retaliatory physical assault resulting in head trauma sustained on **12 August 2026**.
- **Domestic Police Case File:** Journalnr.: **0100-73251-00338-26** (Københavns Politi, Personfarlig krim. sektion 4).
- **Case Officer:** David Purup-Nielsen, Politibetjent (Id-nr: 270171-2946).
- **Appointed Legal Counsel:** On 21 August 2026, [Martin Cumberland](#) (CVR-nr.: **38214543**) was appointed as victim support lawyer (*bistandsadvokat*) by Københavns Byret.
- **The Breach:** Despite the court order stating that all correspondence must go through him, **Advokat Martin Cumberland has failed to establish contact with me for over a month**. Because my digital devices are monitored and suppressed by the state, I am blocked from initiating secure contact with my own legally assigned

representation. This appointment exists entirely on paper to create a false impression
of access to justice, violating my rights under **Articles 6 and 34**.

URGENT: Request for Council of Europe Safety Alert. Whistleblower under physical attack and total digital blockade in Denmark. ECHR Rule 39 applied on 12 Sept 2026. The state is intercepting all devices and library computers to prevent ECHR contact. Physical assault police report already submitted to ECHR. Please publish an alert immediately to force a public state response.

I am a whistleblower facing physical violence and total digital isolation across two Council of Europe states (the UK and Denmark). I am under strict digital surveillance; all my electronic devices and local public networks are monitored, blocking me from safely contacting the European Court of Human Rights or receiving their decisions. My appointed victim support lawyer, Martin Cumberland, has not contacted me for over a month. The harassment has followed me directly into my emergency Danish Red Cross women's shelter in Hvidovre, Denmark.

Please review the attached timeline and evidence. I urgently request that you bypass the local digital blockade and use your official status to trigger a Council of Europe Platform Safety Alert and inquire directly with the ECHR regarding my Rule 39 application status.

I. IMMEDIATE ARTICLE 34 INTERFERENCE & DIGITAL BLOCKADE

I am a whistleblower facing an extraordinary emergency, severe physical retaliation, and a total digital blockade coordinated across borders. I am submitting this via physical analog transmission because all my digital devices, internet connections, and local public networks (including library computers) are heavily monitored and actively compromised.

The state actors are utilizing total communication isolation as a deliberate weapon to intercept Court notifications, prevent legal assistance, and engineer a false appearance of non-compliance. Do not attempt to contact me via electronic portals, email, or telephone lines. If a Rule 39 interim measure is granted or a safety alert is published, it must be communicated via public international press releases.

II. DOMESTIC LEGAL EVIDENCE & "PAPER-ONLY" SHAM REMEDIES

The domestic legal remedies in Denmark have completely failed and are being used as a cover-up to deceive international oversight bodies:

- **Physical Assault & Law Enforcement Failure:** I was physically assaulted and struck in the head on 12 August 2026 for attempting to compile my Rule 39 application. This is documented under **Københavns Politi Case Journalnr.: 0100-73251-00338-26** (Personfarlig krim. sektion 4, Case Officer: Politibetjent David Purup-Nielsen, Id-nr: 270171-2946). The Danish police have refused to investigate, complaints against them were rejected, and the UK High Court (King's Bench Division) denied my injunction application.
- **Deceptive Legal Representation:** On 21 August 2026, Københavns Byret appointed **Advokat Martin Cumberland** (CVR-nr.: 38214543) as my victim support lawyer (*bistandsadvokat*). **This lawyer has failed to make contact with me once for over a month.** This appointment exists purely on paper to trick international watchdogs into believing I have access to counsel, while I remain entirely blocked from initiating secure contact.
- **Compromised Humanitarian Space:** Due to the physical assault, I fled my previous address (c/o Bocentret Sundholm) to the **Danish Red Cross Shelter for Women in Hvidovre**. The systemic surveillance, tracking, and intense harassment immediately followed me here, infiltrating even this humanitarian environment.
- **Institutional Failure of Humanitarian Oversight:** On **22 September 2026**, I formally reported the active abuse, infiltration, and harassment perpetrated by the staff and tenants at the Hvidovre shelter to both the **IFRC** and **ICRC** international reporting bodies. Despite placing these global oversight entities on notice, no protective measures have been implemented, and the hostile surveillance and intimidation inside the Red Cross facility continue completely unabated.

III. TRANSNATIONAL REPRESSION, EXTRATERRITORIAL ESCALATION, TRANSNATIONAL REPRESSION AND OVERSIGHT COVER-UPS

This harassment and illegal surveillance did not originate in Denmark; it began in the United Kingdom. I previously fled the UK to seek safety in Denmark, only for the exact same systemic surveillance, tracking, and physical intimidation to resume here unabated. This immediate continuity strongly indicates transnational repression and the potential exploitation of inter-governmental data-sharing agreements, Europol networks, or international alerts (such as Interpol Blue Notices) to track me across borders. The Danish state is fully aware of my active Rule 39 status, and their escalation of abuse is a deliberate attempt to exploit the court's processing lag, isolating me entirely from international oversight before a binding decision can be reached.

Exploitation of Transnational Intelligence Frameworks and Notice Systems: I explicitly note that the extraterritorial expansion of this illegal surveillance from the UK into Denmark may potentially be achieved through the structural exploitation of international

intelligence-sharing networks, specifically the **Five Eyes alliance**, **Europol communications channels**, and the weaponisation of abusive **INTERPOL Blue Notices**. Corrupt UK state actors have likely manipulated these multi-lateral systems to distribute falsified operational entries regarding me and my adult daughter, living alone in Berlin, Germany. This institutional manipulation effectively deceives local Danish authorities, leveraging shared police infrastructure to enforce an illegal 13-year wiretapping campaign and state-sponsored harassment under the guise of legitimate international cooperation, rendering domestic oversight bodies like the DUP entirely ineffective.

This crisis is therefore a coordinated, cross-border operation that began in the United Kingdom and has escalated into multiple European jurisdictions, potentially exploiting international intelligence networks, Europol, or Interpol alert mechanisms:

- **UK Threat Origin:** I originally fled the UK to Denmark to escape severe systemic persecution and psychological torture. My active UK files are documented under Reference Numbers: **CASE NO: KB-2025-004650**.
- **Extraterritorial Retaliation Against My Daughter:** State actors have expanded their retaliation beyond me to target my family. They have weaponized a highly intrusive covert operation—specifically deploying a Spanish "sexpionage" operative—into the life of my daughter, who resides alone in **Berlin, Germany**, in an explicit attempt to control her, suppress the truth, and break our psychological resolve.
- **Systemic Impunity & Institutional Cover-Up:** I have filed formal complaints with numerous official oversight bodies in both the United Kingdom and Denmark. These oversight bodies have categorically denied the operations, refused to investigate, and allowed the illegal activity to continue unabated.
- **The Link:** My flight from the UK to Denmark was a direct attempt to escape these threats. The identical resumption of surveillance and physical intimidation in Denmark—compounded by the current failure of my appointed counsel, Advokat Martin Cumberland, to make contact—indicates an inter-state operational link or alert system being used to track and isolate me across international borders.

IV. UK JUDICIAL DOCUMENTATION & SYSTEMIC FORECLOSURE OF REMEDIES

- **UK High Court Foreclosure:** In a direct attempt to challenge these corrupt state actors, I initiated formal High Court proceedings and injunction applications in London under **CASE NO: KB-2025-004650**.
- **The Judicial Obstruction:** The UK court subsequently struck out my claims twice and rejected my application for protective injunctions. This structural dismissal mirrors the actions of the Danish courts, providing definitive, documentary proof that domestic judicial remedies in both jurisdictions are not merely unavailable, but are actively weaponized to shield state actors from accountability.
- **Culmination in Physical Violence:** Because the domestic courts in both the UK and Denmark systematically denied me protective measures, the state actors have

operated with total impunity. This cross-border retaliation and severe witness
intimidation directly culminated in the physical assault and head injury I sustained on
12 August 2026 (Københavns Politi Journalnr.: [0100-73251-00338-26](#)).

Because domestic administrative, judicial, and oversight mechanisms are actively acting with
total impunity and executing the cover-ups themselves, **this ECHR Rule 39 application and
international watchdog intervention are my absolute last resort to protect my life, my
daughter's safety, and our fundamental rights.**

- **The Operative:** A Spanish national proxy agent (Name Unknown to Applicant; Biometric Photograph Attached, see below)
- **Operational Base:** The operative resides in Spain and intentionally avoids traveling to Germany.
- **Modus Operandi:** The operative has reportedly never visited the target's residence in Berlin, Germany, requiring the target to travel exclusively to Spain to meet him. This geographical insulation is assessed as a deliberate operational security tactic to prevent the operative from coming under the jurisdiction or surveillance of German federal counter-intelligence, while exploiting the fact that the target's German residence is under active 24/7 surveillance by UK state actors or their proxies.
- **Evidence Provided:** I attach a clear photographic record of the operative (see below). The GBA is requested to utilize federal biometric and counter-espionage databases to identify this individual and map his state affiliations.

The attached photograph is a picture of a transnational operative deployed by UK state actors to enforce human trafficking, execute non-consensual cyber-surveillance, and silence witnesses. This individual is a Spanish national and still resides in Spain, who is actively operating as a sexpionage on EU soil to suppress the truth.

Caption: Photo of my daughter and her new Spanish boyfriend, who I reasonably believe is a sexpionage, whom she started dating in or around September 2023 soon after breaking up with her Belgian boyfriend of 12 years under suspicious circumstances. Even after complaining to the UK police and other oversight bodies, including the The Investigatory Powers Tribunal (IPT), several times to remove the honey trap and the hidden cameras from her place, they refuse to do so and deny everything. But evidence says otherwise.

He has also supposedly never been to her place in Germany. It's always her who goes to visit him in Spain instead. This strongly suggests that he knows there are hidden cameras and audio recording devices illegally installed in her accommodation as well, to sexually abuse and exploit her. He also works as a streamer, by the way.

Caption: Certified Danish Police report detailing the violent physical head-strike assault executed against me on 12 August 2026, which I reasonably believe the UK state-actor defendants were behind this. Because it happened right after and on the same day I had gathered crucial evidence and information about them to submit alongside my Rule 39 Interim Measure application. In the Danish police's letter, it also stated that a victim's lawyer (bistandsadvokat) had been retroactively assigned to me on 21 August 2026.
