## JU\$T a Banking Consultant

Born: 1956 Grad: Tufts

Year: 1978

Jamie Dimon has run JP Morgan Chase Bank since 2004. The bank seems to apologize as weakly as possible and only when they get caught. He did some banking, and then some more banking before taking this surprising job at a bank. The first place he worked out of Tufts was a surprise though; the infamous Boston Consulting Group, with some interesting alumni.

"We do expect rates to stay low for the long term."  
- Okay Boomer.
