

Contributors to the Cardano Constitution that was approved at the Constitutional Convention on Dec 05, 2024.

Drafting the Cardano Constitution was a large global effort of the Cardano Community. This list of contributors recognizes those who directly drafted the Constitution, those who directly provided their inputs to the draft, and those who were critical to facilitating a process for the Cardano Community to arrive at one cohesive version.

Although many contributors are listed below, it is not to diminish the contributions of those whose names do not appear. Their contributions were equally important, and are equally appreciated.
